PORTUGUESE NEWS.

FRANCE.

VERSAILLISTS BECOMING UNPOPULAR.

LONDON, June 1.—The *Times'* special from Paris says: The Versailles troops are not now so popular as when they entered Paris, because of the severe measures taken by them against the population.

RETURNING.

Large numbers of Frenchmen and foreigners are returning to Paris to resume their commercial and manufacturing operations.

GERMANS GOING HOME.

A dispatch from St. Denis to-day says: Two regiments of Guards have returned to Germany. Their places are supplied with other troops.

FAVRE RESIGNED.

The *Standard* contains a dispatch from Versailles announcing the resignation of Favre.

ARRESTED.

Two more members of the Commune, Fankill and Fontaine, have been arrested.

AMBASSADOR.

The Marquis De Gabriae goes to Berlin on the 3d inst. as French Ambassador.

TO BE REMOVED.

Interdiction upon the ingress to and egress from Paris, is to be removed from the 3d instant.

THE FUTURE OF FRANCE.

PARIS, June 1.—The French journals are greatly divided in sentiment as to the future of the country. The opinion of the *Bien Public, Politique Seicle* and *Constitutional* favor the continuance of the Republic. The *Temps Nationale* and *Patrie* are guarded in their comments on the situation. The *Opinion* thinks the withdrawal of Theirs would be equivalent to revolution. The *Seicle* says Theirs is as energetic against the Bonapartists as the Reds. The *Figaro* favors a monarch.

THE THEATRES.

Marshal MacMahon's authorization is required for opening the theatres.

NEWSPAPERS.

The sale of newspapers on the street is prohibited. The *Seicle* was seizedthis morning.

CEASED.

Executions have ceased. The prisoners are now on trial at Versailles.

BARRICADES.

Barricades in Paris numbered four hundred.

ENGLAND.

GLADSTONE SICK.

LONDON, June 1.—Mr. Gladstone has been indisposed, but is now in better health.

COLLIER'S STRIKE.

The colliers of South Wales have resolved to strike unless they are conceded an advance of five per cent., in their wages.

SAVED.

Some specie and cotton have been saved from the wreck of the steamship Cresent City.

CONTRADICTED.

The rumors of agitation and a Carlist rising in Spain are officially contradicted.

FROM BOMBAY.

The *Times* has a dispatch from Bombay to the effect that Herat fell into the hands of Yakoob Khan through treachery, and that the Governor was killed in battle.

THE FISHERIES.

LONDON, June 7.—The *Times* to-day in an editorial, while admitting that it is hard for the Canadians to yield their fisheries to the Americans without the advantages of reciprocity in trade expresses the earnest hope that Canada will loyally ratify the treaty of Washington.

CENSURE.

LONDON, June 1—Prince Napoleon has written a letter to Favre censuring the men who proclaimed the Decheance of the Emperor and formed the government of the fourth of September last and demanding of the existing authorities a plebescite for the determination of the future of France.

SETTLED.

It is now positively announced that General Leflo will go to St. Petersburg in the capacity of French ambassador.

PORTUGAL.

LEGISLATIVE.

LISBON, June 1.—There has been such opposition to the Ministry in the discussions in the Cortez of the scheme for raising ways and means to meet the public expenditures that the project of the law has been considerably modified.

THE EMPEROR OF BRAZIL.

Great preparations are being made for the reception of the Emperor of Brazil, who is daily expected in Lisbon on his tour through Europe and the United States.

FINANCIAL AND COMMERCIAL.

LONDON, June 1, 4:30 P. M.—Consols 92. Exdividend 5:20s of '62, 90½; do '65, 90½; do '67, 92½; 10:40s, 89.

LIVERPOOL, June 1.—Cotton steady; middling upland 7⅞d. Red spring wheat 10,10@11s. Corn, No. 2 mixed, 32s 6d. Pork 60s. Cheese 63s. Beef 102s 6d. Lard 48s 6d.

SAN FRANCISCO.

The Weather.

SAN FRANCISCO, June 1.—The cool, cloudy weather and slight rains had an immensely beneficial effect on the crops. Central and northern California, it is now estimated, will have at least a hundred thousand tons of wheat for export. The crop this year and fully five cargoes of the old crop are available for exportation.

IRISH EXILES.

Extensive preparations are now making for the reception of the Irish exiles Burk and Lubby.

AFFRAY.

Yesterday Cleary and McClure, living near Dalles, Oregon, fought on the overland boundary. Cleary went to McClure's house and shot him through the groin, fatally wounding him, whereupon McClure's son shot Cleary through the head, killing him instantly.

TO BE SENTENCED.

Jesus Figarro, convicted of participation in the Medina murder, at Stockton yesterday, will be sentenced on Saturday.

WEST POINT.

Board of Visitors.

WEST POINT, June 1.—The Board of Visitors appointed by the President is reported as follows: Hon. Wm. Atkins, South Carolina; A. G. Edwards, Maryland; Hon. P. N. Johnson, Nevada; Hon. Wm. Miller, Alabama; Prof. Isaac T. Quimby, New York; General J. J. Woods, Kansas; Hons. Henry Wilson, M. S. Carpenter, L. D. Campbell and J. B. Hawley, members of United States Congress.

EXAMINING CANDIDATES.

Of the ninety-eight recently appointed candidates forty-nine were examined by the surgeon, and but six rejected. The preliminary examination of these will commence to-morrow afternoon.

THE PRESIDENT.

The President and family will spend next week here, and return to witness the graduation exercises on the 7th of July, when his son will graduate. A large number of guests are at the hotel, and many rooms are already engaged for the season.

MEMPHIS.

The Yerger Trial.

MEMPHIS, June 1.—The trial of E. M. Yerger for killing Colonel Crane, is now progressing. The Messrs. Jackson, defendant's counsel, made a motion for dismissal on account of a former jeopardy in the trial by the military commission. Overruled on the ground that the former trial was unconstitutional.

CROP REPORTS.

The Little Rock *Gazette* of yesterday has gloomy crop reports from Pulaski. White, Woodruff, Jackson, and Prairie counties, owing to incessant rains and late frost. The stand of cotton is very poor, and many plantations have been plowed up and planted in corn. The Fort Smith *Herald* says that reports from the counties of the mountains are gloomy enough, especially about the wheat. It is doubtful if even seed will be saved.

ST. LOUIS.

The Prize Fight.

ST. LOUIS, June 1.—Jem Mace, with his trainer Jim Cusick, Dick Hollywood, the referee, and several bruisers of this city, left for Kansas City last evening. It is said a fight has been arranged to take place there between Jack Madden and Yankee Sullivan.

EXCURSION.

An excursion party from the East, embracing several gentlemen largely interested in the Atlantic and Pacific Railroad, will arrive at Omaha on Monday next, and proceed to San Francisco, where a conference will be held with prominent Californians interested in the location of the Atlantic and Pacific Railroad.

OHIO.

The State Democratic Convention.

COLUMBUS, June 1.—The State Democratic Convention met at the Opera House at ten and a half o'clock this morning. The attendance is very large. John F. McKenney, of Miami county, was elected temporary Chairman. J. K. Newcomer and J. P. Santmeyer were made temporary Secretaries. The following Committees on resolutions were appointed: First District, William M. Ramsey; Second, M. W. Oliver; Third, C. L. Vallandigham; Fourth, Charles Hawkins; Fifth, C. M. Lampton; Sixth, C. A. White; Seventh, J. E. Waight; Eighth, H. D. Vanvleet; Ninth, G. F. Dickenson; Tenth, F. H. Hurd; Eleventh, Geo. A. Waller; Twelfth, A. Mayo; Thirteenth, George W. Morgan; Fourteenth, D. S. Uhl; Fifteenth, W. R. Golden; Sixteenth, J. M. Estep; Seventeenth, W. Worley; Eighteenth, W. W. Armstrong; Nineteenth, J. H. Odell.

Frank Hurd offered a resolution, which was tabled, instructing the Committee on resolutions not to consider the Fourteenth and Fifteenth amendments in its deliberations.

After the appointment of other Committees the Convention took a recess.

The Democratic State Convention re-assembled at the Opera House at two o'clock. A permanent organization was effected, with Geo. H. Pendleton, Chairman, and a vice president from each Congressional District. Wm. Heisely was elected Secretary. After the reports from the several committees there was a long waiting for a report of the Committee on Resolutions. At last Gen. George W. Morgan submitted the following as the report of seventeen out of nineteen members of the committee and moved the adoption by the Convention.

RESOLVED by the Democracy of Ohio: *First*—That denouncing the extraordinary means by which they were brought about, we recognize as accomplished facts the three amendments to the Constitution recently declared adopted, and the same as no longer political issues before the country.

Second—We demand that the rule of strict construction, as proclaimed by the Democratic father, and accepted by the statesmen of all parties previous to the war, and embodied in the Tenth amendment to the Constitution, too rigorously applied now to the Constitution as it is, including the three recent amendments above referred to and insist that these amendments shall not be held to have in any respect, altered or modified the original theory and character of the federal government, but only to have enlarged the powers delegated to it and to that extent and no more to have abridged the reserved rights of the States, and that as thus constituted the Democratic party, pledges itself to the full, faithful and absolute execution and enforcement of the constitution, as it now is, so as to secure equal rights to all persons under it, without distinction of race, color and condition.

Third.—That the absolute equality of each and every State within the Union is a fundamental principle of the Federal government.

Fourth—That we will always cherish and uphold the American system of State and local government for State and local purposes and are unalterably opposed to all attempts at centralization and consolidation of power in the hands of the general government and more especially when such attempts are in the form of usurpation by any department of that government, and further that we adhere firmly to the principle of maintaining a perfect independence between the co-ordinate departments of the Government, the Legislative, the executive and the judicial, condemning all encroachments by one upon the other.

Fifth—While the fundamental law as expressed in the Constitution is necessarily permanent until abrogated as prescribed by that instrument, all legislation is in its nature and purpose temporary and subject to change, modification and repeal at the will of a majority of the people, expressed through the law making power and that the pretence that one act of Congress not executed or any legislative policy of a party is a finality is totally inconsistent with the whole theory of the Republican Government, and that it is the unquestionable right of the people of themselves and through their representatives at each successive election and in each successive Congress to judge of what legislation is necessary and proper or appropriate to carry into execution and enforce the Constitutional powers, rights and duties of the Federal Government.

Sixth—That as an instance of eminently appropriate legislation under the Fourteenth Amendment, we demand now of Congress universal amnesty.

Seventh—That while we denounce all riotous combinations and conspiracies against the law or to disturb the peace in the South or elsewhere, and demand of all good citizens their utmost influence to put all such down, we also denounce the act commonly called the Bayonet bill, recently passed by Congress, and the more recent act commonly called the Ku Klux bill extending by its terms to every State as enacted, from no other purpose than to complete the centralization of all powers in the hands of the general government, establish a military despotism, and thus perpetuate the present administration without regard to the will of the people, as not only utterly inconsistent with the whole theory and character of the Federal Government and revolutionary and dangerous in their character, but in direct conflict with the spirit and letter of the constitution, including the amendments, which they pretend to enforce.

Eighth—That, holding still to the good old Democratic doctrine of annexation or acquisition of territory, we are yet totally opposed to the scheme of President Grant to acquire San Domingo as a job, and by the means and for the purposes evidently intended.

Ninth—That we are in favor of a strictly revenue tariff conformed to the theory and principles of all other just and wise tax laws, and opposed to the protective theory so called.

Tenth—That the profligate corruption and wanton extravagance which pervade every department of the Federal Government: the sacrifice of the interests of labor to aggrandize a handful of aristocrats; the wicked deprivation of the people of their rightful heritage in the public lands which have been made a gift to railroads and other monopolists; the payment of more than twenty-four millions premium during the administration of President Grant in government bonds, payable at par; the maintenance at an annual cost to the people of nearly thirty millions of an unconstitutional oppression and extortionate system of banking, whereby money is made scarce and interest high are abuses which call for wise and thorough remedies.

Eleventh—That we are in favor of strict economy, of a large reduction in the expenditures of the Federal and State governments, of civil service reform, of the collection of the Internal revenue by State authorities and thereby return to honest labor the myriads of tax gatherers who afflict our land and eat up its substance and of the speedy trial, conviction and punishment of the thieves who have stolen the taxes paid by the people.

Twelfth—That while we reject repudiation, we equally reject the proposition to pay the bondholders more than the contract with their demands, that if the bondholders have rights so have the taxpayers, and we insist upon justice being done to both, that the creditor is entitled to be paid in the same currency he loaned to the government, that when he loaned greenbacks he should be paid in greenbacks unless the contract otherwise provides, and when he loaned gold he should be paid in gold, that to guard against too great an expansion. Greenbacks should be made convertible into three per cent bonds at the option of the note holders, said bonds to be redeemed in greenbacks on demand. That the true method of returning to specie payment is to make custom dues payable in legal tender currency whether paper money or gold, that such a policy would revive a uniform currency and stop gambling in gold and thereby elevate the credit of the government.

Thirteenth. That with the watchward of Reform we confidently go to the country; that we believe the interests of the great body of the people are the same: that without regard to past political associations they are friends of free government; that they are equally honest, brave and patriotic, and we appeal to them as to our brothers and countrymen to aid us to obtain relief from the grevious abuses which wrong and oppress every one except the wrong doers and oppressors themselves.

Fourteenth—Upon State issues we resolve that we are in favor of calling a convention, as provided for by Article 16, Section 3, of the State Constitution.

C. L. Vallandigham, who stood by Morgan's side during the reading of the resolutions, seconded the motion for their adoption. Frank H. Hurd, on behalf of the other two members of the committee, moved to strike out the first two resolutions of the majority report, and insert the following in their stead: That the fourteenth and fifteenth amendments having been made parts of the Constitution by violence and fraud, are revolutionary and void. The motion was lost—yeas 169, nays 293. The majority report was then adopted—yeas 365, nays 139.

Durbin Ward, Thomas Ewing and Geo. W. McCook were nominated for Governor. On the second ballot McCook was nominated, the ballot standing: McCook, 254; Ewing, 19; Ward, 9. Samuel F. Hunt, of Cincinnati, was nominated for Lieutenant Governor.

The Convention took a recess until eight o'clock.

At midnight the Convention is still in session. Wallace of Clark county has been nominated for Attorney General; Col. R. Cockerell, of Adams, Auditor of the State; Dr. Bruehl, of Hamilton, for State Treasurer; Geo. W. Gildes, of Richland, for Supreme Judge, and Arthur Hughes, of Cuyhoga, for member of the Board of Public Works. Nominations are yet to be made for School Commissioners and Clerk of Supreme Court.

NASHVILLE.

Democratic State Committee.

NASHVILLE, June 1.—The Democratic State Executive Committee of Tennessee met in this city to-day, upon the call of its chairman, Hon. Dorsey B. Thomas, and adopted a resolution declaring their acceptance in good faith of the issues of the war, with all the late amendments to the Constitution, and their acquiescence in them as the supreme law of the land. They also declared their approval of the late Democratic Congressional address. At a large meeting of the editors of the Democratic press of the State, now in session in this city, this afternoon this action of the State Democratic Executive Committee was considered, and unanimously approved and endorsed. The meeting was composed of Democratic editors from all parts of the State.

CANADA.

The Treaty of Washington.

OTTAWA, June 1.—The Government papers seem to foreshadow the intended policy of Sir John A. MacDonald and Cabinet with reference to the Washington Treaty. The *Times* says that neither the Government of Canada as a whole, nor Sir John A. MacDonald as its first Minister, are committed to the treaty. They have taken care to reserve to themselves the right of most complete freedom of action in the matter. The *Citizen* says Sir John A. MacDonald displayed sound judgment in avoiding an extreme and taking a more moderate course, as it is understood the signing of the treaty was with reluctance and reservation.

BALTIMORE.

A Detective Shot.

BALTIMORE, June 1.—Christopher Trautfilter, a detective officer, was fatally shot to-day opposite Barnum's Hotel by Thos. Goodrich, who had drawn a pistol intending to shoot his brother Washington.

THE WEATHER.

Synopsis for the past twenty-four hours.—The barometer has again fallen somewhat on the Pacific coast and has risen at the Rocky Mountain stations and in the Missouri valley. It has fallen decidedly from Mississippi to Southern Florida and is rising from South Carolina to Maine. The temperature has risen from Pennsylvania eastward, but elsewhere is sensibly the same as Wednesday. Rain fell very generally during the night from Georgia to Massachusetts, followed to-day by clearing up weather. Cloudy and threatening weather is at present reported from Southern Missouri and probably prevails in Georgia and Florida. Pleasant weather has prevailed on the lakes. *Probabilities*—It is probable that partially cloudy and pleasant weather will be experienced Friday from Missouri to Virginia and northward. It is probable that rain and high winds will prevail in the Gulf west of Florida during the night.

APPOINTMENTS.

Just before his departure the President made the following appointments: Hon. Geo. Bancroft to be Envoy Extraordinary and Minister plenipotentiary to the German Empire. This disposes of the report that Bancroft was about to return to this country. The President also appointed Wm. H. Clagett and Henry L. Warner, of Montana, and Wm. H. Parsons, of Texas, to be Commissioner for celebrating the Centennial Anniversary of American Independence at Philadelphia.

APPEAL.

The appeal of the New York Central Railroad against the decision of Commissioner Pleasanton has been referred by Secretary Boutwell to the Solicitor of the Treasury, in order to obtain his opinion as to whether the appeal can be made as preliminary to final action on the subject.

MINISTERIAL.

Baron Gerolt has not yet obtained leave from his Government to return to Germany. Sir Edward Thornton has obtained leave of Her Majesty's Government, and will take passage with his family for Europe on the 24th.

IN CHARGE.

Generals S. Babcock and Dent and Secretary Douglass will remain at the Executive Mansion to transact such business as may fall within the range of their duties during the absence of the President.

NEW YORK.

Sentenced for Twenty Years—The Ku Klux Committee—Financial Matters—Killed Her Husband—A. T. Stewart Resigns—Fire—The Fittston Tragedy—Advances on Freight—Arrived—Iron Meeting—The Cotton Exchange—Sentence Suspended—Indignation at the Treaty—The Methodist Book Concern—Railroad Changes.

NEW YORK, June 1, 1871.

TWENTY YEARS.

Patrick Cunningham, who stabbed Arthur McDonough at Weehawken, on the 25th of March, was convicted at Jersey City last evening of murder in the second degree. He was sentenced to the State Prison for twenty years.

KU-KLUX COMMITTEE.

The *Tribune's* Washington special says: The Joint Committee of the House and Senate on the Ku-Klux outrages will resume their sessions at the capital, and will have a consultation with some of the most prominent gentlemen of the South. The Committee decided some time ago to obtain the views and knowledge of the leaders in the States of North and South Carolina, Alabama and Mississippi, and to this end the names of five or six prominent gentlemen from each of those were selected and they have been summoned to appear before the Committee for consultation as to the whole question under investigation. The selection has not been confined to Republicans alone, but intelligent and honest men have been chosen, whose statements will have weight with the public. Some of those summoned have already arrived.

THE PITTSTON TRAGEDY.

From a special dispatch it will be seen that the miners who were rescued alive at the West Pittston calamity are still suffering from the effects of the gas and smoke inhaled by them. The first man taken out of the pit on Sunday morning, Andrew Morgan, lies in a critical condition at his brother's. Robert Thomas and William Small seem to have almost recovered their health, and are considered out of danger. John Price is recovering rapidly, being able to be removed to his own house in East Pittston. Geo. Edwards has suffered great agony, but now seems to be slowly improving. Michael Cox is very low, and of his recovery there is some doubt. Anthony Ford is reported to be much better, and, though very weak, is moving about. Thomas Edwards is fast regaining the use of his faculties and his strength. Owen Martin is dead. James Jones, a lad about twelve years of age, who was supposed on Sunday to be sinking, is now improving, and is expected to recover. John Gibbs is extremely ill, though his physicians do not despair of saving his life. Thomas Savage is in a very low and dangerous condition, with a feeble pulse, and his recovery is doubtful. John Williams is in imminent danger; he has suffered an injury of a serious nature to the spinal column, though he may recover. Joseph Fell is low, and is in equal danger. The correct number in the mine at the time the breaker was discovered to be on fire was fifty-nine. Twenty-two of these were taken out before the works burned down; seventeen were taken out of the pit dead; fourteen have died since, and the sixteen remaining are all doing well and will probably recover.

FINANCIAL.

The *Tribune's* financial article says of the stock market: Yesterday, notwithstanding the tendency to general dullness, yet in certain specialities a fair degree of animation was remarked; that Rock Island having risen to 122½, the highest price during this year, is due, in part, to the near approach of the stockholders' meeting, which will be held in Chicago on the 7th proximo. It is asserted by those said to be in the secret pool that the report to be submitted at that time will show an addition of about three quarters of a million of dollars to the surplus of the company, making a total of nearly three millions of dollars surplus on hand in cash. What eventual disposition will be made of this we are not assured, but in case the road should come under the control of the Pennsylvania Central, and we hear that earnest efforts are being made to enlist this stock in Scott Guard the surplus will be available in completing an unbroken line from the Atlantic to the Pacific coast. Lake Shore is active and firm, and higher quotations are also being made in New York Central. Ohio and Mississipi was the weak spot of the list and quoted lower, because, it is said, of the disruption of the pool, though given out that another pool had been formed to rush up the prices.

BOOK CONCERN.

A hearing in Dr. Lanahan's application for a mandamus to allow him to examine the books of the Methodist Concern was postponed to-day to next term of the Supreme Court in consequence of the failure of his counsel to serve on Dr. Carlton a copy of the new affidavit. In this affidavit Lanahan repudiates and denies all accusations that he is *inimical* or unfriendly to the interests of the Book Concern as alleged by Dr. Carlton, and says no interruption to business can possibly be caused by the examination which he desires to make, as the books to which he seeks access have been written up long since, and presents the affidavit of the cashier of the Shoe and Leather Bank, the only one in which the Book Concern kept an account during 1868, showing their average montnly balance only $61,100, instead of $87,397, as appears from the books of the Concern. Dr. Lanahan also says he wants access to the books to procure evidence for his defence.

IRON MEETING.

At the Astor House this morning a meeting of iron dealers was held to consult the general interests of the trade. About fifty millions dollars was represented and twenty millions of capital in the manufacture of bar iron. Permanent organization was effected as follows: President—James N. Burden, Troy, New York; Vice Presidents—James C. Walker, Troy, New York, and Nathan Rowland, Philadelphia; Secretary and Treasurer—William E. Baker, Philadelphia; Board of Managers—Oliver Williams, Chautauqua, Stephen Robins, Philadelphia, Phillip D. Borden, New York, William E. Cagin, Boston, Josiah F. Bailey, Philadelphia, and Landis T. Lovell, New York.

RAILROAD CHANGE.

Frederick Lane, one of the Directors of the Erie Railroad, has resigned for the purpose of accepting the direction of operations upon the new road to be constructed from Rio Janeiro to the Pacific by a party of English capitalists. A corps of engineers has been organized, part of which is already on the way to Brazil, and the rest will soon follow. Mr. Lane intends surveying the entire route, and will return to New York via Japan and China. The trip is expected to occupy about twelve months.

COTTON EXCHANGE.

The members of the Cotton Exchange met to-day, and decided to close the Exchange at 2 o'clock in the afternoon during the summer months. The Committee appointed at the last meeting to nominate officers for the ensuing year, reported for President, Stephen D. Harrison; Vice-President, John W. Earle, Treasurer, Arthur B. Graves, and a full Board of Managers. An opposition ticket has been put forward with J. F. Wenman for President.

A. T. STEWART RESIGNS AS COMMISSIONER.

Alexander T. Stewart sent in his resignation as Commissioner for widening Broadway. He is dissatisfied with the action of his colleagues in deciding to levy assessments upon the property below Fourteenth street and Fourth and Sixth avenues, which he thinks are the extreme limits that can be regarded as specially benefitted by the proposed improvements.

FIRE.

This morning a fire was discovered on the top floor of building No. 5, Frankfort street. It is occupied by several newspaper printing offices, and by George Barkhardt as a restaurant and lager beer saloon. The fire threatened destruction to the entire building, as nearly all the upper floors were wrapped in flames. The adjoining buildings were also in great danger.

SENTENCE SUSPENDED.

Wm. Anderson, a prominent merchant of this city, who yesterday sent United States Judge Benedict a note saying he would discharge one of his employes if he was held for jury to-day, pleaded guilty to the indictment charging an attempt to obstruct the administration of justice, but upon explanation said he acted hastily and without evil intention. Sentence was suspended.

ADVANCE IN FREIGHT.

The Pennsylvania Central and New York Central railroads have advanced the rates, most on first class freight as follows, to take effect to-day: Chicago $1.00; Cincinnati, 93c; Indianapolis, 96c; Keokuk, $1,35; Kansas City, $1,84; Grand Rapids, $1,21; Louisville 93c; Milwaukee, $1,00; Nashville, $1,15; St. Louis, 95c; and other points in proportion.

KILLED HER HUSBAND.

A woman named Devine in East Eighteenth street smashed her husband's skull with a heavy dinner plate yesterday afternoon. The assault was preceded by a furious quarrel. The wounded man was taken to Bellevue, where he died, and Mrs. Devine was locked up.

INDIGNATION.

A mass meeting of citizens, under the auspices of the Irish Democratic Union, will be held at Cooper Institute to-morrow evening to protest against the ratification of the Treaty of Washington. Senator Casseriy and Mayor Hall are invited to speak.

ARRIVED.

The steamship Hansa, from Bremen, has arrived.

NOVA SCOTIA.

The Treaty.

HALIFAX, June 1.—The Washington Treaty continues to be discussed by the newspapers here. The *Colonist and Express* approve of the Treaty. The *Chronicle and Recorder* treat the subject from party views. The reports partly approves and disapproves the Treaty, expressing a desire to see more favorable conditions in that portion relative to the fisheries. The *Citizen* has an Editorial this morning, which proceeds on the presumption that the functions of Parliament have been assumed by the Canadian government, by whom it affirms, the Treaty has been ratified.

BOATING.

The Halifax crew is under daily training, preparatory to competion for the coming Yatch race, arrangements for which are taking a definite shape.

LOUISVILLE.

Extensive Fire.

LOUISVILLE, June 1.—At one o'clock to-day a fire broke out in the upper story of Erich & Hyde's large triple store block, four-story brick, corner of First and Washington streets. Two-thirds of the building, occupied by E. & H. Wilt, extensive bagging and rope factory and warehouse, was entirely destroyed, with a large quantity of stock and machinery, the walls caving in and the wood work being consumed from roof to cellar. The remaining portion of the building was saved. The fire is not yet (2:45 P. M.) quite extinguished, but is under control. The loss is estimated at from $75,000 to $80,000; partially insured.

INDIANAPOLIS.

Death of a Well Known Pittsburgher.

INDIANAPOLIS, June 1.—Thomas G. Duncan, of Pittsburgh, Pa., and so well known as the successful speculator in oil lands, and owner and originator of the famous town and wells of Pit Hole, died at Belfast, Ireland, this morning, of asthma. The remains will probably be brought to this country for interment.

VICE PRESIDENT COLFAX.

His Arrival in this City—Stay at Union Depot, and Departure for South Bend.

Yesterday morning considerable excitement was created at the Union Depot by the announcement that Vice President Colfax had arrived, on his way west to South Bend. He came in a special car, and was accompanied by his family physician, Dr. Bliss, and his private secretary, Mr. Tod. He came from Washington by way of Harrisburg, and arrived here feeling better than when he started, notwithstanding the fatigue of the trip. During the journey he slept several hours, and was able to sit up in an easy chair while here. He was provided with dinner in the car, and was otherwise kept as quiet and free from interruption as possible, although a few citizens were permitted to pay their respects to him. The party left at 1:20 over the Fort Wayne road.

Our readers will remember that the Vice President was stricken down in the Senate Chamber a few days ago with vertigo. He seems broken down, and says he will not in all probability resume official duties for a year. By that time his physician thinks the rest will have made him well again.

Amusements.

OPERA HOUSE.—M'lle Marietta Ravel takes a farewell benefit to-night at this Theatre. A good bill, consisting of two pieces, in both of which the beneficiare will appear, is advertised.

TRIMBLE'S VARIETIES.—Another big bill, with the Japanese as the main attraction, will be given to-night at the Varieties.

PROFESSOR CROMWELL.—Professor Cromwell's beautiful art exhibition will be repeated to-night at Mercantile Library Hall, the subject of the views being, "London—The Great City." We have already dwelt at some length upon the superior character of the Professor's entertainment, and can but repeat that it is one of the most instructive, entertaining and artistic exhibitions which has visited this city for a long time. To attempt to explain the peculiarities of the views would occupy more space than we can spare; all we can do is to assure those who have not visited Mercantile Library Hall that they have missed a treat, and to remind them that Professor Cromwell's stay is short.

STRAWBERRY FESTIVAL.—The Strawberry Festival for the benefit of the Sabbath School will be concluded to-night at the North avenue M. E. Church. The object alone is sufficient to deserve a large attendance.

SABBATH SCHOOL CONVENTION.

Meeting of Allegheny County Sabbath School Association in Cumberland Presbyterian Church—Discussion of Interesting Topics.

The Allegheny County Sabbath School Association held their second annual meeting yesterday afternoon in the Cumberland Presbyterian Church, on Sixth avenue. The attendance at the opening of the session was not large, but the audience was considerably enlarged before the hour for adjournment.

The Convention was called to order at 2 P. M. by Rev. W. T. Beatty, who opened the meeting by invoking the presence of the Divine Spirit. The hymn commencing, "All hail the power of Jesus' name," was then sung. The Scripture lesson read by the President, was the twenty-first chapter of John. Rev. Beatty then made a few very eloquent, impressive, and appropriate remarks, after which a prayer was offered by Rev. R. T. Miller. The President then announced that the time allotted to devotional exercises had expired, and that before proceeding with the discussion of any of the topics, the election of a Recording Secretary in place of Rev. J. S. Sands, who was absent, would be necessary. Rev. R. T. Miller was chosen Secretary *pro tem.* after which the Convention proceeded to the discussion of the first topic, which was

THE DESIGN OF THE SABBATH SCHOOL.

In the absence of Rev. Sands who had been appointed to open the discussion, Rev. T. N. Boyle was appointed.

Rev. Boyle said:

The design of the sabbath school is the study of God's word and the instruction therein not only of the children but of all, he thought that this design of itself was a powerful motive to bring many within the influence of the Church.

Voluntary remarks being in order, short addresses were made by Rev. Dr. Squires, pastor of the church in which the meeting was held, Rev. J. W. McKeever, and Rev. W. G. Taylor.

The next topic discussed was

RELATION OF PARENTS TO SABBATH SCHOOL.

Rev. W. G. Taylor led in thediscussion. He thought it a matter of regret that many parents seemed to regard the Sabbath schools as taking the responsibility of their children's moral training out of their hands. Let the parent have a personal supervision of their childrens Sabbath school duties and give them aid and encouragement in prosecuting the same.

Rev. Messrs. Boyle, Mills and others indulged in some very appropriate and practical voluntary remarks upon the subject, after which the discussion of the third topic was opened by Thos. Bakewell, Esq. This was

HARMONY.

in exercises, teachings and recitations of school. Mr. Bakewell said that three things were necessary to secure harmony in the Sabbath schools.

These were:

1st. The Superintendent must have complete control of the school.

2d. He must have his work judiciously prepared.

3d. The teachers must do their part.

Rev. J. D. Herr, Rev. J. J. Westfalf and others spoke very effectively upon this point.

Rev. S. F. Scovel, who was appointed to speak upon the fourth topic, being absent, Rev. Farris, by appointment, opened the discussion on the subject of

WHAT, WHEN AND HOW SHALL WE SING?

He thought about one-tenth of what Sabbath school music is offered is about the most that is fit to sing. Besides it is all that is needed. Moreover those books that we can obtain the cheapest are seldom the best. Good talent commands good pay at all times.

The discussion of this subject was taken part in by a number of the members.

After the discussion, on motion of Rev. Boyle, a committee of three was appointed to nominate officers for the ensuing year, and delegates for the State Convention. Rev. Messrs. Boyle, Farris and Herr were appointed. The Convention then sung the hymn commencing—

"Fade, fade each earthly joy,"

after which the Benediction was pronounced by Rev. Taylor, and the Convention adjourned to meet at 7.15 P. M.

EVENING SESSION.

The second session of the Convention was opened near the appointed time with prayer, by Rev. F. H. Rabe. Rev. Dr. Squires was called to the chair. First topic, viz: "Best methods of developing a spirit of benevolence in the school," was read, and in the absence of Rev. Samuel Laird, who had been appointed to open discussion, on motion, Mr. John Morrow was appointed to take his place. He maintained that the children should be instructed to give for Christ's sake, and not through any lower motive. The subject was then opened for voluntary remarks. Short addresses were then made by Rev. Farris, Mr. Carr, Rev. W. G. Taylor and Dr. Squires.

The Convention then sang the hymn commencing "Rock of Ages cleft for me," after which Rev. Mr. Jennings made an eloquent appeal to the Throne of Grace.

The second topic was then taken up, viz:

QUALIFICATIONS AND DUTIES OF TEACHERS.

The opening remarks on this subject were made by Rev. Dr. John Douglas, who said the first essential requisite of the Sabbath School teacher is a personal experimental knowledge of the truth as it is on Christ; he must be a Christian. Second, he should have a thorough knowledge of the subject to be taught and have the faculty of imparting knowledge to others. Third, patience and perseverance. Fourth, punctuality. If the teacher is not punctual the pupils cannot be expected to be. Fifth, a tender affection for the children. Sixth, he should be given to prayer.

His first duty is to glorify God. His second duty to sustain the Church.

Quite a number of the members indulged in voluntary remarks on this subject.

After the discussion the Corresponding Secretary read his

OFFICIAL REPORT.

for the last year. From this report we glean the following:

Less than one year ago this Association was organized, in the parlor of the Young Men's Christian Association. Its first regular meeting was held in the month of September last. Since that time five Local Institutes have been held in different parts of the County—in Baldwin township, in Sharpsburgh, in Tarentum and in East Liberty, all of which were well attended. This is deemed the most effective way of reaching the rural districts.

The Constitution of the Association provides for an assistant corresponding secretary in each ward, borough and township, but owing to the limited time at the disposal of the Corresponding Secretary, only fifty-three have been appointed, so that forty districts yet remain unrepresented.

From this cause our statistics are incomplete and it is imposible to present a report in full.

Reports have been received from 101 schools showing a total enrollment of 17,676 scholars; an attendance of 13,072 scholars and teachers. Number of teachers and officers, 2,068; 92 schools are kept open during the year and 17 average six and one-third months; 32 have uniform lessons; 19 have weekly meetings and 32 monthly. As regards financial affairs the Association has been much embarrassed. We have expended $42.75 and a number of bills remain unpaid. A number of perodicals have been obtained and may be found upon the tables of the Young Men's Christian Association and a room in their building can be obtained for a teachers room as soon as sufficient funds are procurred to supply it with what is needed.

The report of the Committee was on motion received. A vote of thanks was returned to the Corresponding Secretary, Mr. Gillespie, for his efficient services.

After singing the Doxology and the pronouncing of the Benediction, Convention adjourned to meet at 9 o'clock this morning.

The following is the Programme for this morning's session:

9:00 to 9:15—Devotional. 9:15 to 9:35—Memorizing Scripture, Rev. I. W. McKeever. 9:35 to 9:55—Voluntary Remarks. 9:55 to 10:15—Rewards, advantages and disadvantages, Rev. Joseph King. 10:15 to 10:35—Voluntary Remarks, 10:35 to 10:55—Library, its character, and how to conduct it, Rev. B. F. Woodburn. 10:55 to 11:15—Voluntary Remarks. 11:15 to 11:35—Election of officers for the year. 11:35 to 12:00—Election of Delegates to State Convention.

A Stratagem.

A few evenings since as Justice Evans was leaving his office, he was confronted by two charming young ladies, who requested a private interview. Conducting them back into his office, the bland magistrate inquired in what way he could oblige them. "You are a Justice of the Peace, are you not?" the eldest and by far the prettiest of them inquired. "Yes," he said. "And can marry people—that is, can marry a lady?" "Well, yes, if the lady brings a bridegroom along with her. I'm not a marrying man myself," rejoined the trembling magistrate, fearing lest his own liberty was involved in the issue. "Oh, not at all," said the damsel, and turning to her companion, continued, "I reckon, Willie, you can strip off these togs." No sooner said than done; the young lady's companion commenced to tear off her dress with a haste that promised a speedy nudity. Inexpressibly shocked (for the Judge is a very modest man,) he turned to escape from the room, when a second glance he could not restrain, revealed to him the fact that the supposed young lady in process of stripping off her female gear was not a girl but a strapping boy, who had used the disguise to get his dulcina in the presence of a magistrate. Of course this explained the situation, and without more ado the Judge proceeded to join them in holy bonds "until death or the divorce courts should them sever." In remuneration for his trouble, the bride gave him a smacking kiss, and went on her way rejoicing. To use the Judge's own expressive phraseology, that kiss was beautiful.—[*N. O. Pic.*

Pigeons.

At the recent convention of the New York Sportsmen's Association, at Utica, 8,000 pigeons were provided and used for the trap shooting practice usual on such occasions. The gentleman who provided the birds spent about four weeks in securing them. By means of the telegraph he traced flocks from one small station to another, through the woods and over the fields, rivers and lakes of Michigan to Sparta, Wisconsin, where they were reported as congregated in vast numbers. He hastened to that point and captured the required number in nets by the use of stool-pigeons. One thousand and two coops, containing altogether 10,200 pigeons, were shipped from Milwaukee to Buffalo; of these about 8,000 arrived in good condition on the shooting grounds in Utica. During their three days trip on the propeller, the birds consumed thirty-four bushels of corn.

GENERALITIES.

A WOMAN in Cincinnati, a leading actress plays Richard the Third at her benefit.

THE reason why the French have had such hard lines is because they couldn't keep their rulers straight.—*Ex.*

THE meanest man in Lowell, Mass., was given a box of strawberries the other day, and then returned the box and took five cents for it.

THE Mayor of Washington discharged a servant girl the other day, and the spirited young woman set his house on fire the very next night.

THE *Golden Age* strongly advocates Mr. Greeley for the Presidency, calling him the Benjamin Franklin of his time. —It should have said of his *Tribune.*

THE funny man of the Boston *Post* is dead: so is the man who gives credit for quotations; the result is the jokes are borrowed, slightly changed and put in without saying they are not original.

A RECENT writer says that the fences of the United States have cost more than all the craft that float in our waters, salt and fresh; more, indeed, than any other class of property except railroads.

A PARSON, reading the funeral services at the grave, forgot the sex of the deceased, and asked one of the mourners, an Emeralder, "Is this a brother or a sister?" "Naythe," replied Pat, "only a cousin."

THE Louisville *Courierjournal* says: Young Mr. Justice, of Dayton, has married Miss Clara Arnold. Justice ought to be satisfied now, for here's a Benedict Arnold with his neck securely in the noose.

IN his speech at Atlanta, Jefferson Davis said: "In the cant language of the day—punishment with me is 'played out.' The worst that can be done has been done and I have no more to fear." Of course he referred merely to this world.

A WEDDING has recently taken place in South Norwalk, Mass., which was brought about in a romantic manner. A young lady in trimming hats wrote her name and address on the inside lining. A young New Yorker bought the hat, and a wedding resulted.

THE Cincinnati Germans refuse to obey the recent order of the Mayor of that city closing up their beer gardens on Sunday, and have announced their intention, should he persist, of voting against his party, a threat which they say will have the effect of making him yield.

IN a private letter from E. B. Washburne, Minister to France, received a few days ago, that gentleman writes: "It is a terrible thing to have to remain in a city of two millions of people, where there is no shadow of law, but the law of force and terror. I had rather be in Galena, living in the little house I bought in 1840, than to be here."

THERE was a wild scene at a fire in Findley, Ohio, a few nights ago, when it became known that there were three kegs of powder in one of the burning buildings; but a young man, Henry Erb by name, rushed in, brought out two of them, and then returning, found that the fire was already charring the keg that yet remained. Seizing it nevertheless, he brought it out.

AT Chicago, last Thursday afternoon, a young girl named Lizzie R. Westcott, accepted the invitation of a boat ride instead of going to school. Afterwards she wrote a note to her teacher, signed with the name of her aunt, saying she had been detained at home. This little deception so wrought upon the sensitive heart of the poor girl that she committed suicide the same night by taking morphine.

JOURNALISM in Cincinnati consists of picking out one of the editors of a rival paper and publishing all the personal things you can think about him. His religion, creed, politics, family and distant relations, together with the personal appearance. In Louisville journalism consists in calling any cotemporary a liar, which happens to quote an article of which the original writer and publisher has become ashamed.

GENERAL BUTLER, fishing for Fenians and their votes, is the subject of Mr. Nast's cartoon in *Harper's Weekly.* John Bull and Jonathan are walking off, fraternally arm in arm, with the Alabama claims tucked safely away under their arms, and the poor boy on the wharf sits blubbering over the most important (to him) "Fishery Question:" "Now, what is a poor little boy to do? They have taken my bait away."

THE Lynchburg *Republican* says: "Lynchburg boasts of a sun dial which was made in London in the year 1428, and which, consequently, is now 443 years old, and which, when Columbus "crossed the ocean blue" and planted his standard on American soil, enjoyed the ripe old age of sixty four years. The age of this venerable noter of the sun's course appears to be unquestioned, and is doubtless the oldest specimen of man's handiwork which this country can furnish."

THE Czar of Russia, is so well pleased with the services of his Minister to this country, Count Crtacazy, that on the recent anniversary of his birthday he signified his wish to confer some substantial token of his Imperial favor upon him. The Minister suggested that it would be more agreeable to him if it could be conferred upon his mother, who is now in Russia, instead of upon himself: and accordingly a handsome sum was added to the pension allowed her by the government.

CALIFORNIA papers tell of a man who, having lost a considerable portion of his nose in a fight, picked up the severed part and put it in his pocket, and subsequently, having gone home and bandaged what was left, put on his best suit and started for a surgeon. When the doctor was ready to reunite the separated parts, he called for the piece, and the mutilated man, to his horror, found that he had left it at home, and after searching vainly in all his pockets, said: "I beg pardon, doctor; it is a rough joke on me, but I left my nose at home in the other vest."

JOHN KNOERR, a blacksmith of Hickman, Mo., has gone into the miracle business with a prospect of success which might even make the lady of Lourdes blush for her honors. He has performed most remarkable cures without the use of medicine, magic, spiritualism, or even the laying on of hands. The most respectable citizens of his town vouch for the truth of stories in regard to his curing powers, and as the man refuses to receive a cent for his services, of course he must be considered a natlral magician. Miracles are getting quite a show latterly.

ASTONISHING events transpire in Connecticut. The recent purchaser of an old mansion in Stratford, formerly owned and occupied by the late David Brooks, while engaged in tearing down the stone chimney, came across a large earthen pot of peculiar shape and very ancient, containing specie. What amount of treasure was found the lucky individual is reluctant to state, but it is noted that after his good fortune the gentleman, who had been engaged in the dry goods and grocery trade for a number of years, to the surprise of his many friends, sold out his stock and fixtures leased his store and retired from business.

A BALTIMORE undertaker has just introduced a patent glass-top ice burial casket, constructed on ingenious and scientific principles, the vacuum between the inner and outer casings being filled with ice, which is prevented from melting by the non-conducting principles of the materials within which it is inclosed. There are no drippings from the ice, and the casual observer of the casket would never suspect its presence. By means of an air-pump the air is removed from that part of the casket where the body rests, and this arrangement completes the plan by which the body is preserved in a perfect state for a week.

THE catacombs of Paris were made use of by the insurgents as a means of safe comunication between certain of the outlying posts and the city. Frequently, however, companies of men were lost in these devious burrowings, and it is supposed that in many cases men and women have perished in the attempt to seek safety in the underground labyrinth. No less than three parties of fugitives from Fort Vanves were discovered by workmen in the catacombs and rescued from a frightful death; but there is reason to believe that a part of the garrison of that fort were lost underground, and, of course perished of starvation and the poisonous air.

One of the pent-up men in the burning mine at Pittston, Penn., says: "After shutting ourselves in we sat down together, all anxious, some despairing, some hoping we would see daylight again. About 6 o'clock some of the men went to sleep, and I tried to wake them up, but they would sleep. Again we shook hands with each other, and all prayed. Some of the men were crying. We who were awake were anxious to hear some sign of salvation coming to us. I opened the door and went through to the bottom of the shaft, but almost failed to come back. Since then I remember nothing—it seems as if I had been dreaming."

A MACHINE has recently been perfected in London, with which a writer, using a pen in the usual manner, can at the same time produce a duplicate so small as to be invisible to the naked eye, yet so distinct that a microscope will reveal every line and dot. A most useful application of the apparatus will be for the prevention of forgery, as private marks can be made on notes and securities, legible under microscopic power, but which no imitator could see or even suspect the presence of. The inventor, a Mr. Peters, states that the entire contents of the Bible can, with the help of this machine, be written twenty-two times in the space of a square inch.

JOHN ALLVANY, formerly a fireman on the Louisville, New Albany and Chicago railroad, and well known in Lafayette, was drowned at Michigan City last Wednesday afternoon. The Lafayette Daily *Journal* gives the following particulars: "A party of four were riding on the lake in a fishing boat, and when the boat was two miles out it was capsized and all thrown into the water. Three of them clung to the boat and were rescued. Young Allvany, however, started to swim to the shore, and with the aid of a plank succeeded in reaching within about eighty rods of it, when he was compelled to let go his hold in consequence of his benumbed condition and was drowned before assistance could reach him."

A CORRESPONDENT of a Richmond paper makes some pertinent remarks upon Southern farming: "It is getting time for some revolution and change from the old routine and 'old fogy' ideas of bygone days, and we must keep progress with the times. We cannot farm upon the system adopted by our fathers. We must shape out a policy of our own, in accordance with the great change which has taken place. We must have concert of action, without which there can be no success in any business, more particularly farming. To accomplish this we must organize into farmers' clubs, and have frequent conferences. We all now have to depend upon our resources for support."

THE N. Y. *World* says: Mr. Charles Reade has had the audacity to introduce himself as a prominent figure in his new novel, "A Terrible Temptation." Under the name of "Rolf," a writer of novels and plays who has succeeded in liberating many alleged lunatics from unjust confinement, he describes his personal appearance and habits, and also his house and study and his method of work. With the happy self esteem which is characteristic of him he speaks in very complimentary terms of Rolf's novels and dramas and of his personal character, all of which will add a new interest to the story, but will give room to Mr. Reade's personal enemies to reflect in no complimentary manner upon his egotism.

THE Windsor, North Carolina, correspondent of the Norfolk *Journal* says: "The fisheries for shad and herring have ceased operations for the present season. The amount of fish caught is a fair average, perhaps somewhat above. Those on the Albemarle Sound and Chowan river have done better. Report has it that at one haul, 2,000,000 of herrings were taken and 21,000 shad. This will afford great relief to our people, who now are buying pork and bacon from the North, when once a considerable article of our export to the ports north of Baltimore was bacon and barreled pork. One great difficulty our fishermen have had to contend with was the scarcity of salt." The last remark in the extract quoted is worthy of attention.

IN Baltimore the "Smith Family" announce that they have made arrangements for their first annual excursion," which is to take place next Tuesday, under the superintendence of a committee of arrangements, embracing Grandfather George M. Smith, Father Julius H. Smith, Uncle James A. B. Smith, Nephew Charles H. C. Smith, Brother Wm. H. H. Smith, Brother M. W. Smith, Brother Thomas R. Smith, Brother Jos. L. Smith. Ballet Master—George W. Smith. The music is to be by "Smith's celebrated band," and all the "Smiths, Smythes, Schmitts, Schmids, Schmidts, Schmitzs, Smidts and Smitts," are invited to attend. This, it will be seen includes that famous candidate for the Presidency, who honored the Governor, Mayor Brush and General Drum by allowing them to escort him last Tuesday.

Mausoleum of the Maccabees.

The *Quarterly Review of Prophecy* (London) for April states that a Frenchman, M. Guerin, has discovered the famous mausoleum of the Maccabees, hitherto searched for in vain. It was found at Kirbet el Medich:

"After several visits to this spot, M. Guerin caused the whole of the structures to be excavated methodically under his own eye, and discovered the entire plan of the edifice, the existence of seven sepulchural chambers for seven members of the illustrious family, and surmounted by seven pyramids placed in a line, each covering the ceiling of one chamber Finally, in the midst of the ruins of Mussulman habitations built near the edifice, were found numbers of pieces of monolithic columns, much mutilated, all of the same diameter (forty-seven centimetres), remains of the magnificent colonnade which decorated the front of the building, the last confirmation of the discovery The tombs were explored. The floors were covered with small mosaic cubes, in some cases still adhering together, in others seperate, and one of them contained five or six human bones, which were carefully respected."

Metz.

The Sanitary Commission, appointed early last December, to bury the dead around Metz, has completed its labors, having been hard at work during the last six months. The area under the charge of the Commission comprised a circle of nine miles radius, where 25,000 human bodies lay half, or not even half, buried, and where numberless dead horses were decomposing in the open air. The report of the Commission states that all the bodies have been carefully interred, and the graves properly disinfected with lime. The battle-fields were also plowed up and sowed with grain and pulse. The growing crops were mowed frequently, in order, by their rapid vegetation, to assist the decomposition of the animal matter. Extensive plantations of trees were also made around Metz, to aid in removing the miasma. Four companies of German sappers and miners were engaged in the work of removing the bodies, and the graves were dug by companies of the landwher.

FOR a long time antiquarians and mythologists have been of the opinion that after all no sword was suspended over Damocles' head. He was probably suffering at the time from an attack of too much "benzine," for he had renounced the use of Pier, Dannals & Co.'s cream ale.

GOLD closed in New York yesterday at 112¼.

THE recent dreadful mining disaster at Pittston, Pa., involves a loss of some thirty-four lives. The families of the victims have in most cases been left in helpless condition and impoverished circumstances and are worthy of the substantial sympathy of the charitable.

SOME of our exchanges are complaining of long droughts in different parts of the country, and say that their crops are suffering in consequence. Although the past month has been rather dry in this region the Agricultural Society report that the crops in the county will be fully up to the average. There will be about half a crop of apples, and a "medium yield" of peaches and pears. The showers of yesterday must prove highly refreshing to the growing crops, and we are glad to see that other localities have been visited with copious rains.

ORDER IS SLOWLY being re-established in unfortunate Paris. The fearful revenge taken by the Versaillists on the men, women and children captured, demonstrated that they have no higher claims to the admiration and respect of the civilized world than the fiendish Communists. The French altogether appear to have been deprived not only of the grace of God, but of the blessings of reason and intelligence. They are a race of blood-thirsty and insane people, and no matter under which banner they rally their conduct is all the same—degrading and heartless.

THE *Post* thinks that the speeches of Jeff. Davis do not contain anything that is open to objection, as he relies "not upon a new rebellion, but upon the peaceful return of a sense of justice among the people of the United States for a triumph of the 'rights of all the people.'" We did not expect to find an apologist for Davis in Pittsburgh. We hope none will fail to read the extract, given in another place, from Davis' Atlanta speech, and then ask themselves is there nothing objectionable in it? Even the New York *World* is unable to swallow it. Davis declares distinctly that he does not counsel a resort to arms, because the Federal "power is so great that it would be folly to resist it." If it were weak, he would give resistance at once.

THERE is a prevailing fear that this will be a year of wide-spread epidemics. Yellow fever is committing frightful ravages in Buenos Ayres in South America. Alarm and consternation have driven the people to take flight from the scene of wasting and destruction, in such numbers, that the population of the place has been reduced about one-half. Of course, we must make great allowance for exaggeration in the circumstances, but there is no doubt that the pestilence is walking in darkness, and the destruction wasting at noonday. It is no wonder, then, that the news that a cargo of raw hides from the port of Buenos Ayres had been landed at New York, has produced considerable excitement in that city. The Health Officer is of the opinion, however, that no danger is likely to arise from the discharge of the cargo. He set three men to watch the vessel, and, with the view of quieting all alarm, reports that these men, in whose judgment he has full confidence, "have not reported anything that looks suspicious, or as likely to lead to danger." It must prove highly satisfactory to the Gothamites that three men, enjoying the "full confidence" of the Health Officer, have not seen anything in the hides or the vessel that is likely to lead to danger. It would have been more satisfactory, however, if he had given information as to the nature of the investigation which they made, and the test to which the hides were subjected.

In London, Paris, New York and other places, both in this country and Europe, small-pox and other cutaneous diseases are very prevalent. No one can tell whether we may be visited by any of those fearful epidemic scourges that are decimating other localities. But it is good at all times to cultivate habits of cleanliness and temperance in eating, drinking and laborious exercises. The sanitary condition of our city is not very good at present. There is filth enough to invite or superinduce any and every disease. The most disagreeable stenches are experienced everywhere. The gutters on the streets, and the cellars of grocery stores are in a most filthy condition, and emit the most unpleasant odors. The sanitary condition of the city demands immediate attention, and we hope it will be given. An ounce of prevention is worth more than a pound of cure any time.

A PUBLIC BLESSING.

The good people of these parts will rejoice to learn that the public spirited Park Commissioners of Allegheny have just completed arrangements whereby sweet music will be discoursed every Saturday afternoon in the beautiful park grounds of that city. We can imagine no kinder act than this nor any one which meets so much the approbation of the community. After the wearisome toil of the week in the workshop, the mill, the foundry, the counting room or the warehouse, our people need rest and relaxation. Too often have many had recourse to places where in hilarity and insobriety they endeavor to seek relaxation with most damaging and disastrous results. Perhaps in the past there were some logic and reason on the plea that having no breathing spot belonging in common to themselves they have been forced to seek the pleasure of society and the mock enjoyment of the tippling room or beer garden. Thanks to the well directed enterprise of our sister city the order of things has been changed, and no longer can such excuses be urged for an indiscrete manner of spending their leisure hours. Beautiful garden grounds, rich in natural and artificial adornments, lovely, enticing and enchanting have been handed over to the guardianship of the public and the humblest holds equal share in the ownership. All are invited to enter into the possession whenever they may wish to enjoy retreat they afford, and now since sweet music is to mark each returning Saturday afternoon we will marvel if the attendance be not exceedingly large and generous. The people of Allegheny are not selfish in their truly grand possessions. They delight in sharing with all comers the pleasures of their Parks, and to-morrow afternoon will be pleased to have such large attendance as will demonstrate in so unmistakable way that the public appreciate the efforts that they have made to advance the morals of society and to cater to the rational pleasure and enjoyment of the masses.

A FEW WORDS TO THE POST.

The *Post* is always ready to ask questions, when its editor thinks he has a contestant "on the hip," and expects to make a point in that way. It also develops another peculiar trait, when it fears that the point is to be turned against itself, viz: that of *dodging the questions of others*. We have frequently taken pleasure in replying to political questions that our neighbor, in the discussion of National and State polity, has seen fit to propound, and sometimes, we admit that in so doing we, at the time, appeared to be helping our enemy in his attacks upon ourselves. But our course and that of our party have been so consistent and straightforward that it only required a little time and reflection, on the part of our friends to determine that we stood fair and square, on all of the issues before us; and if sometimes differing with them, we at least have the satisfaction of knowing that our position has always been understood. No one need ever be in doubt as to where the GAZETTE stands on all the questions of the day. Though compelled often to dissent from the views of friends, for whom we have the greatest respect, yet all will admit that we never hesitate to give our own views as to the policy of the party, whether in State or national affairs.

But how is it with our neighbors of the *Post?* A day or two ago we asked them a few practical questions, which would not have required of them any study, and scarcely any time to answer. These questions bore directly on their present position, and their past record in relation to the principles of their party. They profess to have been sincere in their past, and also, we presume claim to be sincere now. They avowed their entire and hearty adhesion to the principles of the Democratic party during all these past years since 1860, and also claim to adopt as their own the new platform recently erected at Harrisburg. Some persons think that these professions are inconsistent; that adherents to the principles of that party, as enunciated in 1864 and 1868, cannot now adopt the new measures without being thought dishonest; that the planks of the former and those of the latter will not join; that to have been right then, must prove that at present they are not sincere; in a word that a perfect war exists between the two professions.

Now what we want to know from the *Post* people is, were the measures of their party as accepted by them in 1864 and in 1868 right, and do they still believe them to be right,—or do they admit them to have been wrong and worthy no longer their advocacy? In warring against the constitutionality of Republican acts and measures for the salvation of the country, during the rebellion, do they confess to have been wicked and criminal? In proclaiming as *illegal* all of the acts of the various Republican Administrations, thus lending aid and comfort to the country's enemies, do they admit that they were unjust as well as ungrateful? In opposing the various draft acts, laws for the collection of revenue, for the issuing of paper currency, in order to save the nation from complete destruction, do they confess their want of patriotism and their love for the rebels? In denying the authority of the country as then organized, a portion of the States being unreconstructed and therefore unrepresented, to adopt and make legal the Thirteenth, Fourteenth and Fifteenth Amendments to the Constitution, do they acknowledge their error, and admit the binding force of these amendments? In threatening to overturn the governments of the Southern States as reconstructed and recognized by Congress, do they confess their own folly? Lastly when they promised, having once regained their control of the government, to declare these constitutional amendments unconstitutionally adopted and therefore null and void, thus disfranchising the Blacks, and reducing them again to slavery, opening up the question of paying the confederate bonds and other indebtedness, and by these means bring about another dreadful civil war, were they in dead earnest, or were they only deceiving their ignorant and deluded followers?

Probably they were not in earnest, and if so, most likely they are not in earnest in their latest professions. A party that will cheat and deceive once, is not to be trusted hurriedly. A season of probation is necessary. A generation or two possibly should pass away, in order to properly purge the body politic from such scurviness and political pollution. We again ask the *Post* to define its position, and hope it will do so at once, and without fear. Come, neighbor, toe the mark; speak out, and let us know what your new democracy really teaches.

THE SPIRIT OF REBELLION.

We commend the most considerate attention of our readers to the inflammatory and seditious harangues that are now being made by Jefferson Davis in his itinerations through the South. We stated yesterday that the spirit of rebellion is about as rabid in the South now as ever it was, and that if the people of the "lost cause" only had the power, they have the will to plunge the country into another war. We wish our people to bear in mind that it is only the members of the Democratic party that talk treason. We do not say that all Democrats are disloyal, nor that they sympathize with the incendiary tirades of Davis, Johnson and others. But it is a significant fact that Democratic politicians are the only persons who are guilty of the base work of exciting the Southern people to resistance to Federal authority, and producing a feeling of dissatisfaction with the present state of things. Perhaps we should state that the Northern people did not expect it of Horace Greeley to proclaim the "dawn of a new era for the South." His unguarded speeches, which some people are uncharitable enough to say are bids for Southern votes, have anything but a salutary effect. They have no doubt contributed much to embolden Jeff. Davis and his allies, and cause them to entertain new hopes of the revival of the lost cause, which all good people hoped was buried so deep that resurrection would be impossible.

That our people may understand the posture of affairs and the spirit that reigns in the South at present, we will present to them another extract from one of Jeff. Davis' defiant utterances. He says:

"I am not of those who "accept the situation." I accept nothing. These cant phrases that we hear so much of about "accepting the situation" and about our rights having been submitted to the "arbitrament of the sword," are but the excuses of cowards. [Applause.] I admit that power prevails over truth; I admit that that power is so great that it would be folly to resist it, and therefore I am in favor, myself, of being acquiescent, and I advise you to the same course, but I do not admit that our rights have ever been submitted to the arbitrament of the sword. Who has the power to submit your liberties to the arbitrament of battle? You never delegated that power to your representatives. I, as your Executive, never claimed it, and never, dying or living, will I admit it. [Applause.] And then, my friends, about this much-talked-of subject of "accepting the situation," you are not called upon to acknowledge that you have done wrong unless you feel it. I don't believe I did any wrong, and therefore I don't acknowledge it."

This speech, which it will be seen was received with applause by the audience to whom it was delivered, was made in response to a declaration of the Georgians, that the sacred principles for which he had contended so ably "will, in the fulness of time, assert their supremacy over wrong and tyranny." The principles maintained by Davis are that the General Government shall be subordinate to that of the States, in their sovereign and individual capacity, and that the arbitrament of the sword has decided nothing; that things just stand now as they did in 1860. He claims that in sacrificing hecatombs of our fathers, brothers and friends to the Moloch of State Sovereignty, and the perpetuation of human bondage he did nothing "wrong!" We do not believe that there is another Government in the world that would tolerate one of its citizens to make such declarations as these without bringing him to just and deserved punishment.

JUDGE WILKINS.

Some Interesting Reminisences.

Mr. Forney in his recollections of public men, says:

No Pennsylvania statesman is more kindly remembered than William Wilkins, who was born in Carlisle, Pa., December 20, 1779, and died at Homewood, near Pittsburgh, June 23, 1865, in the 86th year of his age. His career may be said to have been unusually fortunate and distinguished; and when called away he was sincerely mourned by a community in which he had lived a long period, and taken an active part in public affairs. A Senator in Congress from 1831 to 1834, successor to James Buchanan to the court of St. Petersburg, Representative in Congress from 1843 to 1844, Secretary of War under John Tyler from 1844 to 1845, member of the State Senate in 1857, and intermediately a successful practititioner of the law and judge in the higher courts of his district, he filled all these diversified stations with signal dignity and tact. His family was closely identified with the Government in its political, judicial, military and naval service—many of his connections to this day holding high and responsible positions. Reared to the habits and manners of good society, and well educated, he was one of the most agreeable of men; and yet, while mingling much in fashionable life, he had confessedly few of its vices. I have seen him many an evening when jollity, wit and humor ruled the hour, yet he never touched a glass of wine, and was the chief attraction by his endless flow of spirits and his peculiar magnetic amiability. When I was the Democratic candidate for United States Senator, in 1857, before the Legislature of Pennsylvania, of which Mr. Wilkins was a member, I felt that we should have exchanged places, and that the post for which I was selected ought to have been tendered to him, and I called upon him to make the suggestion. His answer was characteristic: "Ah, my young friend, I have seen the elephant, and it is quite time that you should have an opportunity of making his acquaintance," a luxury, by the way, which General Cameron stepped in and reserved for himself.

I am reminded of this interesting character by a letter which I received a few days ago from my old friend Dr. Jonas R. McClintock, of Pittsburgh, who attended the venerable statesman during his last illness, and who is devoting himself to the praiseworthy task of reviving the history of Pittsburgh and Pennsylvania. His materials will run back a hundred years, and will, when embodied in book form, constitute not only a valuable depository of facts, but if written, as they will be, in the Doctor's pleasant style, one of the most fascinating memoirs of the times. If men like Dr. McClintock would occupy a little of their leisure in the accomplishment of the same purpose, in their respective localities, they would honor themselves and enrich the literature of their country. As a specimen of the work now in course of preparation by Dr. McClintock, he enclosed to me the following striking incident of the last hours of his venerable friend, Judge Wilkins, now for the first time published:

Judge Wilkins gloried in the unimpeachable integrity that marked the "bench," and jealously guarded his own status in the profession by well and carefully-determined opinions. It was a treat to listen to his criticisms on the public acts of the various departments of the Government as they transpired during the recent rebellion. It was a current on which he delighted to glide, affording invigorating exercise and securing an intellectual clearness that accompanied him through life.

On the occasion of a several days' anticipated visit, during the last few weeks of life, from his nearest neighbor, a medical friend, who was prevented making his customary unprofessional call, the Judge was found in a half reclining position on his couch in pleasant conversation with the members of his family seated around, whilst the music of the little birds that had become wedded to the broad eastern portico by his punctual supplies, broke upon his ear in their joyous song of thanks.

After a pause, hesitating to mar this lovely patriarchal picture, the defaulting visitor entered the opened September door, to whom the Judge turned, and after words of sharp but playful rebuke, closing with finding ample apology for apparent neglect in sickness at home, he said: "You cannot guess, Doctor, how I have passed some of the tedious hours on my cot." Pausing for a moment, he continued: "I have been trying Jefferson Davis for high treason. I have gone through the whole formula with all the solemnity of a great State trial; the court properly constituted, the jury empanelled, and the prisoner arraigned, the latter answering to all the counts in the indictment, 'Not guilty.'

"In opening the case for the United States, I took occasion to assure the court that I would economize its valuable time, so far as the prosecution was concerned, and close the case of the State in half an hour.

"The first witness called to the stand was General Longstreet, who, having been duly sworn, stated, in answer to an interrogatory, that he had commanded the armed forces of the Southern Confederacy who had invaded the District of Columbia, and within the limits of the city of Washington had killed and wounded more than an hundred Union soldiers, and that in so acting he had but obeyed the order of the chief commander, General R. E. Lee. Waiving further question, the witness was discharged, and General Lee was called and duly sworn, who testified as to his position in the Confederate service, his directions to Longstreet, and his subordination to Jefferson Davis, President and Commander-in-chief, of the Army and Navy of the Confederate States, from whom he had received instructions to invade Maryland and the District for the purpose carried out by his Lieutenant General. At this point I closed and rested my case. After hearing the defence, and without a word of argument, I asked the jury to render a verdict of guilty. His fate was then sealed. The defense of want of jurisdiction—too late in presenting and weak if entertained—left the prisoner's counsel to a silent submission, and he was duly convicted.

"Yet in mercy I looked at the matter in another light, and to that end constituted myself the leading advocate of the prisoner. After solemn arraignment, the calm, worn, but inflexible offender, who did not appear to shrink from the bloody consequences of his acts, or tremble at his own peril, following my judgment and counsel as his only hope for the future, to the question put in the ponderous tones of the clerk—'Guilty, or not guilty?' said: 'May it please the court, I answer guilty—not morally, but politically guilty. Permit me to say further, the first lessons that fell on my ears at the hearthstone of my father—the first political teachings received at the feet of the wise and learned men of the academy and the university, and vindicated by the universal sentiment of those men with whom I mingled in Southern homes, comprehended the doctrines inculcated by the Virginia resolutions of 1798, teaching allegiance as first due to the sovereignty of my State, subordinating that of the General Government.

"'This may in your wisdom, and in the judgment of the world, be determined a high crime; but I submit that it was done in the faith of the right, and with the belief, however misguided, of conscientious duty.

"'I therefore throw myself on the judgment of the court, and ask its merciful recommendation to pardon.'

"'I,' said the Judge, 'felt that this was his *only chance of escape.*'

"Thus I have been filling up my time, dreaming myself away in the sturdy hope for an early return of fraternal feeling among the States."

Standing on the very verge of the grave, after an eighty-years' buffet with the world, pleasantly rehearsing the line of thought that had engaged his last hours, forgetting his weariness and weakness in first grasping treason by the throat, and then turning from the sacrifice and counselling such frank acknowledgment as could not fail to reach the magnanimity of the authorities so deeply offended—such was the loved, not faultless, sage of "Homewood" during the fortnight that transpired before the "golden bowl was broken," or the flowers of his own choice placed upon his bier.

Stronger by weakness, wiser men become,
As they draw near to their eternal home;
Leaving the old, both worlds at once they view
They stand upon the threshold of the new.

A DYED-IN-THE-WOOL Democrat is what a southern paper calls Vallandigham. How much better it would be if it could with as much truth speak of him as having died in his youth.

SCIENTIFIC.

PHOTOGRAPHY is now applied in medicine to the delineation of wounds and their changes during treatment. A splendid collection of this kind belongs to the Royal Medico-Chirurgical Society, London.

THIRTY SIX English gentlemen have formed an organization for the observation for the planet Venus, in order to extend our knowledge of its surface. They propose to keep the planet continuously under observation, from the present time until October 24, 1872.

ANOTHER new meat-preserving process, said to be very successful, is described in the *Moniteur Scientifique*. It consists in the immersion of the meat in a solution of perfectly pure carbolic acid in water. Not only raw meat, but eggs, fish and vegetables can be preserved by the same method.

THE collection of skulls from the battle fields of the Franco-Prussian war is mentioned by a German writer as an opportune means of adding to our knowledge of ethnology. He urges, particularly, the importance of obtaining a good series of the skulls of the Turcos and other African tribes represented in the French army.

COLORS have actually been photographed at last, according to the editor of the *British Journal Photography*. He asserts that there is not the slightest shadow of a doubt of this fact, inasmuch as he has seen, handled and produced them. The colors are not brilliant, but are decided enough to be recognized by any person not color blind.

ST. WALBURGE'S Church at Preston in Lancashire was struck by lightning during a violent thunder storm in March last. The electric discharge was so powerful as to break the lightning conductor—a rope containing forty two wire strands—at a height of sixty feet above the ground On the following morning, hundreds upon hundreds of dead worms were found on the ground around the church.

A CANDIDATE for the prize of twenty thousand dollars offered by the late M. Breaut for a cure for the cholera, sends to the Paris Academy of Science an account of what he believes to be the true cure. It is very simple; consisting of merely a film of a mixture of collodion and castor oil laid over the stomach of the patient so as completely cover it. We are not informed whether it has ever been tested.

THE active principles of plants, according to recent investigations, are more concentrated in the leaves of plants grown in cold climates where the vegetation is less vigorous, than in warm climates In illustration the well-known facts are sited, that tobacco grown in Northern regions is stronger than the same plant raised in mild or tropical regions, and celery, it is stated, is affected in the same way by the influences of temperature and moisture.

THE prevailing idea entertained by the inhabitants of temperate climates as to the exceedingly gorgeous nature of tropical vegetation is far from correct. Mr. Wallace, who lived for years in the East Indies, says that in the most luxuriant parts of the trophics flowers are less abundant, on the average less showy, and are far less effective in lending color to the landscape, than in temperate climates. While there are many grand and beautiful tropical plants, it must be remembered that the proportion they bear to the mass of the vegetation is very small.

AN account is given in the *Comptes Rendus* of an apparatus for showing that electricity is unable to pass through a vacuum. A vaccuum is produced in a glass tube by means of the mercurial air-pump, and the tube is made hot by a charcoal fire, while the suction of the pipe is still continued. Two platinum wires have previously been cemented into the tube, the requisite distance apart, and, after the tube has been kept hot for some time, the opening that communicates with the pump is sealed hermetically. An electric spark cannot be passed from one wire to another, the vacuum constituting an insuperable barrier.

A NEW expedition to the South Pole has been proposed, in an address before the Berlin Geographical Society, by Dr. Neumayer, who for many years was director of the observatory at Melbourne, Australia. It is especially desirable that astronomers should be able to reach certain points in the South Polar regions in 1874 and 1882, whence to observe the transits of Venus, which will occur in those years; and Dr. Neumayer suggests that an expedition might take advantage of the warm current which flows southerly from the trophical region of the Indian Ocean, and passing the Cape of Good Hope, extends probably to the interior of the so-called Antarctic Continent.

CARBOLIC ACID, it is reported, has been extracted from the 'Andromeda Leschenaultil,' a common plant growing abundantly on the Neilgherry hills, in the East Indies. The acid, which has been extracted from this plant by Mr. Broughton, the Government chemist, differs in some respects from that obtained from coal tar, being less deliquescent and far more pure. It is therefore believed that this new product would be an excellent substitute for ordinary carbolic acid for administration as a medicine. Although the plant is inexhaustible, the process of extraction of the acid is costly, and this fact will delay its use. The East India Government, however, considers the discovery as important, since in case of war the supply of carbolic acid would not depend on America.

A CORRESPONDENT writing over the signature "A Subscriber," from Carter's Creek Station—he does not mention what State—relates the following story, which he desires to have explained: "On the night of the 23d of this month (February) we experienced a very hard rain, but unaccompanied by an undue amount of wind. On the morning of the 24th a neighboring hill, three hundred yards from any stream, and fifty feet above the highest water mark of the creek, was found to be literally covered with fish of almost all kinds. Now I know this will tax your credulity to the utmost; but there are half a dozen men of most undoubted veracity who will swear to the truth of the above statement." There is no reason to doubt that similar phenomena have occurred in India, the fish being elevated into the air and carried away by whirlwinds. In 1835 a small pond in France, containing a large number of fish, was emptied in this way, and M. Peltier gives an account of a shower of toads experienced by him in the same country, when these animals fell upon his hat, his hands, and upon the ground about him. As the rain mentioned by our correspondent occurred during the night, it was not improbably accompanied by more wind than he supposes.

CROPS.

A CORRESPONDENT writes to us from Iowa: "We had on Tuesday a deluging rain which our crops needed, and now we can see quite an improvement in them. The promise now is of a bountiful harvest."

IN eastern Pennsylvania drought is doing much damage, also in southeastern New York where the woods are on fire. In Wayne and Pike counties, Pennsylvania, the damage to lumber and grain has been enormous.

A LETTER from Logan, Utah, May 16, says: "The crops look first-rate where there are no grasshoppers; but they are very numerous in many places, and are taking the crops clean as they go. Many of the brethren have lost most of their grain already, and the caterpillars are still working vigorously on both sides of the river."

THE Palo (Ill.) *Press* of May 27 says: "Crops in this vicinity look very promising. Small grain stands well on the ground, and is growing vigorously. Corn is all planted and up, and some farmers have commenced the first plowing. Some fields that were planted during the cold weather of week before last had to be replanted. Fruit looks well."

Sweden's Intentions and Prussia's Interests.

[From the Pall Mall Gazette.]

Some sensation has been produced at Stockholm by the intelligence that Prince Bismarck has called upon the Hamburg Senate to report whether the acquisition of the islands of Spitzenbergen by Sweden would be advantageous or otherwise for the commercial and shipping interests of Germany. This news was a great surprise to the Swedes, as the intention of the Swedish government to obtain possession of the islands in question had been hitherto kept secret. It now appears that the government proposes to establish a colony in these islands "for scientific purposes," and that it has notified its intention to England, Germany, Russia, France, Denmarck and the United States. A meteorological and magnetic observatory is to be erected there, and in order to obtain the necessary security and control the whole territory is to be placed under the Swedish rule. This project is connected with the Artic expedition, which is to start this summer, under the direction of Prof. Nordenskiold, with the object of penetrating as far as possible in the direction of the North Pole.

THAT modest man Gen. Jubal A. Early has been given a cane by some Lynchburg ladies, and in his letter of acknowledgment says that it was a matter of very great gratification to him that he had it in his power to be instrumental in saving from the ruthless hand of the invader that city where so many of his personal friends reside; and that he only regrets that his poor services, along with those of others who were defending the same cause, were not able to save the whole South from the disasters which befell her.

HARD RUBBER TRUSSES.

You have observed posted up around the city placards of hard rubber trusses, which are said to retain any rupture, however severe, with the additional advantage that they will not rust or corrode. Dr. Keyser, at **167** Liberty street, has these, as well as every other kind of truss that may be needed for the relief and cure of hernia or rupture of the bowels. Let the afflicted remember as they go along that Dr. Keyser's after all is the place. If you want cheap trusses, from two dollars and upwards, the Doctor has them, as well as the best and highest quality that can be procured in the United States.

To the ruptured, there is nothing of equal importance to have a well fitting and properly adjusted instrument, therefore let not persons who have a breach or rupture waste valuable time in trying useless and inefficient remedies, when a sure and absolute relief can be obtained at Dr Keyser's Truss Depot, **167** Liberty street, which is at the same time an office for the cure of every chronic disease. Cut this advertisement out, so that you can remember the place. my23

NOW THEY ARE FRESH.

N. B.—Where you will find the finest Minera Water in the city, Kissengen, Vichy, Blue Lick and Congress on draught, drawn from the marble founts, and one of the finest west of New York city.

Remember at James E. Burns & Co.'s, cor. Penn and Sixth streets. my29

YOU HAVEN'T TRIED THEM.

Victim of debility, who is responsible for your feebleness? Not yourself, you will say, for you've done all you could to cure it. That's a mistake on your part.

You haven't tried Hostetter's Bitters.

Gloomy dyspeptic, with an uneasy stomach and a world-weary face, of course you don't think yourself responsible for your own torments. But you are. It is easy to see from your condition that you haven't tried Hostetter's Bitters.

Bilious sufferer, it is not your fault, you think that your symptoms grow worse day by day. Blue pill doesn't do you any good. Very likely. But you can be brought round for all that.

Why haven't you tried Hostetter's Bitters?

Friend, on whom fever and ague alternately blows hot and cold, and whose brain seems to be bursting with the effects of some powerful drug, do you assume the responsibility? Oh, no! You've taken piles of quinine, and all the regulation medicines. What could you do more? One thing more—the very thing that would have exempted you from all the pangs that now rack you.

You have never tried Hostetter's Bitters.

Nervous invalid, what have you to say? You plead that you have taken all the nervines of the pharmacopœia. If they have done you no good, it is not your own fault. You are not responsible. Wrong, all wrong. You have, in reality nobody to blame but yourself.

Why haven't you tried Hostetter's Bitters?

For all the above-named complaints, the Bitters are absolute specifics

MONEY AND COMMERCE.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, June 1, 1871.

The local money market continues easy and the demand from really first class borrowers light. Paper of lower grade, however, moves heavily and dealers find it difficult to consummate sales upon fair terms.

The investment demand for home securities is steady, and the bonds and stocks most dealt in are commanding full prices.

The New York market shows some marked changes throughout. Gold has advanced ½ per cent, and the Government bond list is higher throughout.

The Railway market has fluctuated considerably during the day, closing a fraction above the lowest figures, but the market betokens weakness. The reports vary as usual, one party asserting that the heaviness is the result of bull tactics, and is really preliminary to another large advance—the other side, affirming very strenuously, that the entire street will soon be upon the bear side, and the bulls will be forced to accept a decline. Cleveland & Pittsburgh and Erie show much steadiness. Pacific Mail and Ohio & Mississippi are exceptionably weak.

—Considerable surprise and regret were expressed yesterday at the announcement of the suspension and probable failure of the well known cotton firm of Nimmons & Houghton. The rapid advance in contracts for future delivery of cotton and inability to keep good their margins are supposed to have been the weak point on which the difficulties of Messrs. N. & H. hinge. Their liabilities are supposed to be pretty evenly divided among the trade, but nothing definite is as yet known as to the aggregate indebtedness or the amount of assets. This suspension caused a nervous feeling to prevail throughout the market during the day, and increased the desire of a great many shorts to cover at once.—*N. Y. Bulletin.*

NEW YORK, June 1, 1871.

Gold strong, opening at 111⅞, advancing to and closing at 112⅛. Loans mostly made flat and at one time one per cent. was paid for use. The amount bid for at the Treasury sale was $6,116,000, at from 110-61 to 111-94: awards of 2,000,000 at from 111-87⅛ to 111-94. Governments strong and higher in sympathy with gold. Stocks opened rather heavy but remained quiet until after the second call, when the market was forced down by the bears, who sold largely, but a quick recovery in prices is probable, for the bull cliques have been buying all day, and with easy money and short interest to assist them, they will be able to rally the market. The leading features were Rock Island on account of its strength, and Pacific Mail for its weakness. The report that the latter company made public today is not as favorable as had been anticipated. Lake Shore sold as low as 12⅜ at one time during the day. Union Pacific and Erie also were weak. The market closed firm and active with a recovery from the lowest figures. Money easy at 3@4 per cent. State securities dull and heavy, particularly in the Tennessee issues.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, June 1, 1871.

ASHES—Common Soda Ash, 4⅜@4⅜; refined do, 4⅜@4⅜; Pearls, 9@9⅜; Pots, 7⅜@7⅜.

BUTTER—Continues dull, and unchanged; 12@14c for fair to good and 15@16c for strictly prime. While the arrivals are not large, the supply nevertheless still seems to be in excess of the demand.

BEANS—There is some inquiry for choice Navy and the market is almost bare; may be quoted at $2. Common and medium very dull.

BROOM CORN—Very dull: we can report occasional small sales at 5@6, as to quality.

BEESWAX—Quoted at 28@30 cts.

CEMENT—Louisville, $2.50@2.75 per bbl Rosendale, $4.00@4.50; Calcined Plaster, $4.25 @4.50.

CARBON OIL—Is firm but quiet; standard brands, in a jobbing way, 23@23½—about one cent more in small lots.

CANNED GOODS—Tomatoes rather firmer but unchanged, at $2.62½ per dozen for standard brands. Peaches more active but unchanged, $2.25@2.50, for 2 lb cans, and $3.25@3.50 for 3 lb cans. Corn is still quoted at $2.50 @2.75.

CHEESE—Continues dull, and drooping: we now quote prime Goshen, at 14@14½; Factory, 13@13½; and Dairy, at 11@12.

CORN MEAL—We can report small sales at 85@90 cts per bushel.

COUNTRY BACON—Demand is rather better, but as yet the inquiry is mainly for small lots; we continue to quote shoulders at 6@6½; ribbed sides, 7@7½; clear sides, 8@8½; hams, 10½@12½c. Country lard 9½@10½.

EGGS—The market is reported a little offish and while the receipts are only moderate, the supply seems to be fully up to the demand and prices are barely maintained; 19@20c—sales reported to-day, at both of these figures.

FLOUR—The feeling is scarcely so strong under the influence of late advices from the west together with recent rains, though there is no change whatever to make in quotations, $7.00@7.25 for red winter wheat; $7.50 for white; $7 for good spring extras and $7.25 for choice baker's flour. To show the feeling in Chicago, a letter has been received here from a firm at that place making inquiry as to the prospects for selling flour on commission.

FEATHERS—Scarce and in demand, with sales of No. 1 live geese feathers at 74@75—usual advance in a small way.

FRUITS—Green apples scarce and may be quoted at $5@8 per bbl. Dried Apples unchanged at 5@7 cts as to quality. Dried peaches, 10@11 for quarters; 11½@12½ for mixed, and 14@15c for halves. Oranges, $6.00 6.50; Lemons, $6.50. Prunes, 10 for Turkish, and 12c for French. Currants, 10@10½ cts. Layer Raisins $3.00 per box; Valencia's, 13 cts per pound.

GRAIN—The Wheat market presents no new features worthy of special notice; with continued light arrivals and a steady milling demand, prices are maintained, $1.43@1.47 for fair to prime red and 8@10 cts more for white. Dealers generally report that it is difficult to find buyers for the lower grades, as the mills want nothing but No. 1, and, consequently, the latter sells much more readily and, that too, at relatively better prices than the former. Oats, as noted in our last report, weaker but unchanged; 58@60 buying and 62@63 selling—small lots, in store, 65. Corn continues very dull, and the tendency is still downward; mixed is quoted at 65@68 and prime yellow at 70—small lots, in store, 3@5 cts more. Rye is quiet and unchanged; small lots $1—a round lot would bring 3@5 cts more. Nothing doing in Barley, none in the hands of dealers and the receipts continue very light.

GROCERIES—Our eastern advices, particularly from New York, report Coffee very dull and weak, and the stocks accummulating and with an unusually light demand from the interior, importers are anxious to realize and it is intimated that still further concessions would be made to effect sales. Sugars, also, continue weak with a decline of ⅛ to ⅜ a cent in the prices of refined within the past few days. Rice is scarce and firm, with sales of Carolina in New York at 9⅜@9⅞. Molasses and Syrups, quiet and unchanged.

COFFEE—Fancy Rio, 19; Prime, 18; Good, 17; Fair, 16⅜; Roasting, 16@16⅜.

SYRUPS AND DRIPS—White Honey, 72; Havemyer & Elders, 72; Silver Drips, 60; Loverings, 63; other grades, 45@55.

SUGARS—Choice New Orleans, 11⅜; prime, 11⅜ good, 10⅜; fully fair, 10⅜; Porto Rico Sugars, 10⅜@11⅜; Cuba, 10@11; Demarara, 11⅜ @12⅜.

REFINED SUGARS—Hard Sugars, 13⅜; A Coffee, 12⅜; "B," 12⅜; Extra C, 12⅜; C. yellow, 12⅜.

MOLASSES—New Orleans, choice, 70; prime, 68; good, 65.

TEAS—Fancy Young Hyson, $1 40; Good, $1 16; Fair, $1. Lower grades down to 70cts. G. P. Fancy, $1 50; good, $1 25; fair, $1 10; Imperial Fancy, $1 40; good, $1 25; fair, $1; Oolong fancy, $1 25; good, 80cts; fair, 60@70c; Souchong fancy, $1 20; good, 90c; fair, 70@80c, Japan Fancy, $1; good, 90c; fair, 75c.

RICE—Choice Carolina, 10c; prime, 9⅜c; good, 9c.

SPICES—Grain Pepper, 22c. Pimento, 17c. Cloves, 20c. Cassia, 55c.

HAY—Is a shade easier but unchanged; sales on wharf at $16@19, according to quality and condition.

HUSKS—Quoted at 2⅜@2⅜ cts.

HIDES—Green salted (all weights) 10⅜@11⅜; green butchers (cow and steer) 7@8; green salted kip 14@16; do calf, 16@18 Dry.

HEMP—Rough Kentucky, $175 per ton; dressed, 14 cts per lb.

LIME—Sales of Cleveland at $2.25 per bbl and eastern at $1.75.

MILL FEED—Sales from store, in a jobbing way, at $1.40@1.50 for Bran; $1.65@1.85 for Middlings and $2.50 for oil meal.

OILS—Lard Oil is quoted at 84@86 for No. 1 Extra.

PEA NUTS—Higher, 10@10½ cts.

POTATOES — Prime Lake Shore Peach Blows are still quoted at $1.30@1.35, for small lots, in store. The receipts are increasing somewhat, but the supply in this market at present is by no means large.

PROVISIONS—Plain Bacon Shoulders, 7¼@7⅜; Sugar Cured Canvassed, 10⅜; Canvassed Sugar Cured Hams, 14⅜@15; Breakfast Bacon, Canvassed, 14; Ribbed Sides, 9⅜; Clear Sides, 10⅜. Lard, 11⅜ for prime kettle in tcs. and 12⅜c in kegs. Dried Beef, 18@19c. Mess Pork, $18⅜.

POULTRY—Live Chickens quoted at 70@75 cts per pair, by the coop.

SEEDS—There is little or no inquiry for either Clover or Timothy Seeds and the season may be regarded as over. Flaxseed is scarce and wanted—may be quoted firm at $2.20@2.25.

SUMAC—Sales Tennessee Sumac at 4⅜ cts.

TALLOW—Rendered, 8@8⅜.

WILLOWS—Sales Kentucky willows at 10

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, June 1, 1871.

We have to report a very quiet market, the operations in both crude and refined being comparatively light, and, while the general feeling is weakness, operators generally being a little bearish, there is no quotable change to make in quotations, as compared with yesterday. The market opened a shade firmer but eased up before noon, was dull all day and closed weak. The stock of refined in Philadelphia is unusually large, something over 50,000 bbls, and this, together with continued liberal shipments eastward, is having a depressing effect. Crude is still reported steady in the oil regions and it is intimated that the producers are determined to keep prices up until the 1st of July, in order to bleed the short sellers—there are a large number of seller options out that mature at that time.

CRUDE.

Sales 5,000 bbls buyer June at 13⅜; 6 cars spot, at Foster at $5.10. Buyer all year quoted at 14; seller all year, 12⅜.

REFINED.

June quoted at 25⅜; July at 26; sale 1,500 each July and September, at 26⅜.

TIDIOUTE, June 1, 3 P. M.—Market quiet and dull at $4.90.

PITTSBURGH WOOL MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, June 1, 1870.

We do not hear of many transactions since our last report. Small lots of the new clip are beginning to arrive which are purchased by our dealers at 45@47c for good average lots. So far as we can learn, this seems to be the price offered by buyers in the country districts. The eastern markets being quite bare of wool it is probable that the first arrivals will bring fair prices, but after the markets are somewhat stocked, it is probable that prices will recede somewhat from current selling rates. We quote low and medium fleece, 43@46; tub washed and combing wool, 47@50c; fine fleece, 45@50c; fancy clips, 48@50.

We clip the following from the New York *Bulletin*: The market for all descriptions of wool remains unchanged and without excitement. Nothing definite can be learned regarding the new clip, excepting that it will begin to arrive from the West in about two weeks. In Cincinnati the market for the new clip has opened quite brisk, with a scarcity of old stock, and prices are 3@5c per lb higher than at the commencement of last season. Trade so far has been chiefly in Kentucky wool, but some lots of Indiana and Ohio are moving, and an active trade is expected in the future. The current quotations are, unwashed, common to fine, 28@32; fleece washed, 38@45c; tub washed, 43@48c; unwashed combing, 35@38c; washed combing, 45@50c per lb. The California markets are high and wool is selling with comparative freedom, although the unfavorable advices from dealers here have had the effect of rather checking operations, excepting on the part of Eastern manufacturers, who are still buying and shipping considerable amounts. We hear of a prominent clip which was marketed at San Francisco last year at 18c, selling this season at 36, and many other cases could probably be given. Texas wool is arriving in moderate amounts, and sells freely, in most instances directly from the ship. The bulk is going into consumption, though we hear of some sales to dealers here and in Boston. The sales to-day have not been heavy and include no important lots. There is but little stock to operate on, except of foreign and California, which are held in fair amounts.

The annexed table shows the number of bales of wool imported into this port during the past week and since the 1st of January, as compared with the preceding year; also, the receipts of domestic during the same period:

FOREIGN.	Bales.
Imports week ending May 27	1,431
Imports since January 1, 1871	25,064
Imports same period 1870	16,234
DOMESTIC.	
Receipts week ending May 27	654
Receipts since January 1, 1871	24,216
Receipts same period 1870	29,372

The receipts of domestic wool to-day were 32 bales. The receipts since January 1 are 24,216 bales.

The Boston *Advertiser* reports the wool market of that city as follows: The receipts of wool for the week comprise 3,228 bales of domestic, against 3,093 bales of domestic and 314 bales of foreign for the same period last year. The sales for the week have been 800,000 lbs of California and domestic, and 250 bales and 200,000 lbs of foreign. The market remains without any special change, and trade continues to be restricted by want of desirable staple. The sales of Western fleece have been at full prices, but there is hardly enough stock in the market to furnish a basis for quotations. There have been sales of new California at prices ranging from 38@43c—the latter price for choice Northern wool—but the receipts have been light, and holders are firm in their views. Pulled wools remain unchanged. The receipts are lighter, as most of the pullers have suspended operations for the season, and the sales of the past week consist largely of lots pulled earlier in the season. There is some speculation as respects the opening rates of the new clip, and it is evident that they will be somewhat higher on the best class of wools than the price paid last year. Nothing has been done yet, as the fleece has not been shorn, but there seems to be a prevailing impression that the early sales will be the most advantageous to the grower.

Dry Goods.

NEW YORK, June 1.—The dry goods market for cotton fabrics is buoyant under the rapid advance in the price of raw material, and the tendency is toward higher rates for heavy brown sheetings, and goods of this class, which are comparitively low, meanwhile the general trade is relatively quiet, as buyers are only purchasing small quantities for absolute requirements. We think, however, that the speculators are purchasing quietly, and although the goods are not going into actual consumption, like print cloths, they are determined to make some goods scarce in the cotton line. As yet, there is no important change to observe in the rates, yet the current is likely to turn soon. Heavy sheetings are selling lower now than at any time in six years. Brown drills are also relatively low, and with a rise of 3⅜ cents per pound in the price of cotton, the prospect for higher rates for low priced cottons generally looks favorable, beside opening the coal mines of Pennsylvania, it is likely to stimulate the demand for heavy brown sheetings and goods of this class.

Cincinnati.

CINCINNATI, June 1.—Cotton dull and declined; middling 17@17⅜c. Flour firm; family $6.75@7.00. Wheat steady; No 1 red winter $1.48. Corn quiet and unchanged at 53c. Rye steady at $1@1.05. RIVER NEWS.

The rain of Wednesday has had little or no influence on the river at this point, the marks last evening indicating about 28 inches in the channel. Weather clear and hot with every appearance of more rain.

There have been no arrivals or departures since the date of our last report. The Granite State was due last night.

The Lorena is ready to depart for St. Louis as soon as there is sufficent water.

Capt. M. A. Cox has returned from New Orleans where he was called on some private business. He is now at his home in Brownsville.

The Kate Putnam is en route for this port with Capt. John L. Rhodes in command.

—The New Orleans *Picayune* assures the public, from reliable information, that the Natchez and Katie will not run a race for the trips they are now advertised for. They are desirous to have all the business that may be intrusted to them. The Natchez will leave New Orleans on June 3 and 17, and July 8 and 22. The Katie leaves there on June 10 and 24, and July 15 and 29. During the absence from the Vicksbnrg and Bends trade, the W. S. Pike will represent the Natchez, and the Ouachita Belle will represent the Katie.

—The Cincinnati *Gazette* says: The Exchange will lie idle here till the Alaska leaves, when she will load for New Orleans in the regular line. Capt. Ed. Evans will command her on the trip, with Capt. A. C. McCallum in the office. Meanwhile, Capt. John L. Rhodes will take the Kate Putnam to Pittsburgh and reload her.

—The towboat Hunter has been sold at Evansville to Chadwick, Fox & Co., of Cincinnati, for the sum of $875 cash. She will be used in the future in towing railroad ties for the Evansville & St. Louis Air Line railroad.

—Mr. T. C. Doane, second clerk of the Ada Heilman, was married on Thursday, the 25th, to Miss Lottie Stewart, of Mt. Vernon.

—The Wauanita and barges, bound for Pittsburgh, has laid up at Cincinnati to await a rise in the river.

—Andy Robinson, recently of the St. Marys, has taken charge of the office on the Champion.

—The latest intelligence reports the Arkansas river as having risen 9 feet.

—The Glencoe and Belle Vernon were at Cairo on Tuesday.

—The Exchange arrived at Cincinnati on Monday.

GRATES.

Keep Your Houses Clean,

AND

SAVE FUEL

BY USING THE

Wellman Patent Reflector

STOVE AND GRATE,

Which Stand Without a Rival.

The WELLMAN STOVE is furnished with the "REFLECTOR GRATE," and possesses all the advantages of an open fire place; it is specially adapted to houses where the flues are too small to admit a grate, and affords all the comforts of a CHEERFUL OPEN FIRE.

1st. As a radiator of heat it has *double* the intensity of any other grate.

2d. It is unquestionably the most cleanly—no soot or ashes escaping into the room—which, in the ordinary Grate, proves so detrimental to carpets and furniture.

3d. The combustion is *perfect*. There is no waste in unburnt cinders—every ounce of the fuel is so completely consumed, that nothing remains but the finest ashes.

4th. As an economizer of fuel—there being an actual saving of at least 25 per cent.

5th. It is highly ornamental.

6th. It is set so deep in the chimney, that it is much safer, and also less liable to puff in windy weather.

7th. A slight motion of the shaker cleanses the entire fire, and causes it to burn with great brilliancy and intensity of heat.

Samples may be seen and references had at the store of W. BARNES, corner of 3d avenue and Market street, Pittsburgh; W. F. GOODWIN, 66 Federal street, Allegheny, or at the FOUNDRY, corner Duquesne Way and Water street, Pittsburgh.

Parties who are building, or who contemplate changing Grates, are respectfully requested to examine "The Wellman." Satisfaction guaranteed in all cases.

HOME NEWS.

Progressive—Allegheny will afford gratification to her citizens by furnishing music in Park.

The lock-up presented an unusually pitiable sight yesterday morning—with three inmates who were insane. Two were men and one a woman.

"An old citizen," whose communication we have received, must not forget that our uniform custom is not to publish anything addressed to us that is unaccompanied with the author's name.

Go to the Parks in Allegheny on Saturday afternoon next, to the free open air instrumental concert.

Mrs. Mary Wright, residing on Ohio avenue, made information yesterday before Mayor Callow, against Edward Gemmel, for using abusive language toward her, and smashing several windows in her dwelling. The police are after Edward.

The National Photographic Association of the United States will hold its third annual meeting and exhibition in Philadelphia, commencing next Tuesday, June 6th. The exhibition is to be held in Horticultural Hall, and a grand public reception will be given at the American Academy of Music on Wednesday. Lectures on Light, illustrated by a series of magnificent experiments, are to be delivered by Professor Henry Morton.

The bright, green grass, the silvery lakes, the umbrous, rich foliage, the warbling of birds, the pebbled walks of the Allegheny Parks, are in themselves attractions sufficient to draw crowds each evening; but when we add to all these beautiful features the ravishing strains of a well-trained and superior band of music, the bill is filled. Next Saturday afternoon and evening such an addition will be made, and we hope the grounds will wear a gala appearance never before witnessed. Of course, all is free to the people.

Go to the Allegheny Park musical open air, free instrumental concert on Saturday afternoon.

Music in the Parks.

A new and decided attraction has been added to the Allegheny Parks by the energy and taste of the Commissioners. To-morrow afternoon from 5 to 8 o'clock, a band of music will discourse sweet strains on the grounds near the lake. As carriages have free excess at this point the ladies are expected to lend their presence to the occasion. It ought to be a grand entertainment. We trust this step to make the beautiful grounds in the Park real pleasure resorts, will meet with the heartiest encouragement.

Let there be a large turn out on Saturday afternoon, to give the musical feature at the Allegheny Parks, a popular welcome.

Police Notes.

Mayor Brush yesterday disposed of twenty-four common cases.

Mayor Callow sent John Conway to jail for ten days for acting disorderly at the house of Mary Eagan, Woods' Run, Tuesday night.

Noah Jackson was sent to Claremont for thirty days by Mayor Brush for disorderly conduct and general uselessness.

Mayor Callow disposed of six common cases. Edward Scott and C. O'Donnell for vagrancy were sent to the Workhouse for thirty days each by Mayor Callow yesterday morning.

Before Alderman Thomas.

Mary Duffy appeared before Alderman Thomas yesterday and made information charging Patrick Duffy with surety of the peace. Patrick, it seems, has been making several ugly threats, among which was one to kill Mrs. Duffy with a chair. A warrant was issued and Patrick arrested. A hearing was had in the case, when the matter was amicably adjusted, and the information withdrawn.

Anne Killaly made another information against Mary Hogue. This time the charge was selling liquor on Sunday, and Mary has been held to bail for a hearing last evening.

Than to listen to sweet music what better way to close up a week of labor. If these out door musical entertainments at the Allegheny Parks are properly received, they will be continued throughout the summer.

Tobacco Dealer in Trouble.

Yesterday morning Charles E. Pichter, from Scranton, was before Commissioner Gamble, on a charge of failing to keep an account of goods manufactured by him as a retail tobacco dealer. It was alleged against him that he had purchased several thousand pounds of tobacco, and that his books failed to show how it was disposed of; also, that he had kept no record of nearly a million of cigars which he had made and disposed. The accused is an extensive dealer in Scranton.

After a hearing, he was held to bail for trial at Williamsport in the sum of $5,000. He was brought on here by a special detective, and having secured the required bail, was released.

Music in West park Allegheny on Saturday evening next.

Aquatic.

Scharff, the Birmingham oarsman, who is anxious to try his muscle with a worthy competitor is likely to have his wishes gratified. O'Leary who hails from Massachusetts, and has made a reputation there, yesterday morning telegraphed here that he would row him (Scharff,) a five mile race at Worcester, Massachusetts, instead of Philadelphia, as had been suggested, and allow $200 for expenses—or take the same expenses and row at Pittsburgh. Scharff replied accepting the terms, and fixing upon Worcester, which is said to be one of the best places in the country. Unless there is now some dispute about the preliminaries, a race will engage the attention of the sports pretty soon.

Adopting the custom of all the large eastern cities, the Allegheny Park Commission will provide a fine band of music on and after Saturday evening next, to entertain the citizens in West Park near the lake.

Interesting.

For the benefit of our Democratic friends, we clip the following from the *Banner America*, a Welsh paper published in Scranton, Pa. It is pleasant to know that not having any of his *genus* in Wales, the language of that country is inadequate to express the well known title of the late Speaker of the State Senate. Our language had therefore to be resorted to, as will be seen below:

The Allegheny Park Commisson have made arrangements to furnish music in the parks after Saturday next, between the hours of five and eight o'clock P. M.

An Insurance Agent Wanted.

There seems to be a ca'l in Manchester for an insurance agent named—well, we will say Jones. A suit has been brought by Martin Bender, before Alderman Crist, in which he alleges that Jones "took him in" financially in some insurance business which had been transacted between the parties. It appears that Bender consented to have his house insured; the policy was determined on and the agent received the money. While Bender was felicitating himself and taking his rest, believing that he was safe from all losses by lightning, tornado, fire and hail, it appears that the agent had neglected to send the money to the home office and had quietly placed it "on his own hook." When Mr. Bender learned how matters stood he called upon 'Squire Crist for the purpose of making known his troubles and seeking consolation. The matter was arranged by Jones refunding the money and settling the costs. The same person is now wanted by the trustees of the Market street Presbyterian Church. It appears that he has been collecting pew rents in said church, and although he has been a good collector he was not so prompt in making his returns. For this reason it appears that the trustees are anxious to see him.

An Explanation.

Editors Gazette:—Last week a paragraph announced in your paper that a capias had been issued against Alex. McClurg and others, his employees, on the oath of Robert Aiken, who owns property in Reserve township, and that a hearing would soon be had in the matter. The accusation was that McClurg had entered upon Aiken's property and commenced to cut a road through it, &c. The hearing has been had and the facts or merits of the case are simply these: In the year 1834 William Hazlet made an agreement with Benjamin Herr, which agreement is in writing and recorded, that he would give $30 for the privilege to make a wagon road at his expense, commencing at a certain point on little saw mill road on the south side of a draft (or ravine) through Mr. Herr's coal pit farm in Ross township, to W. Hazlet's own land on the top of the hill, the road to be 33 feet wide and to be for use of both parties and their heirs and ass gns forever in pursuance of this agreement.

Mr. Haslet made a road commencing at an entirely different place, some four or five hundred feet from the place designated, crossing Mr. William Robinson's land without leave or any right to do so, and going up through Mr. Herr's land, this being a shorter route but makes the road so steep in the grade, the greater part being ten and eleven degrees elevation, and only from thirteen to seventeen feet in width, and with this road Mr. Hazlet and his son-in-law Mr. Aiken, has been satisfied to travel for some 36 years. But this road so different from that Mr. Hazlett agreed to make, does not suit the assignees of Mr. Herr and Mr. McClurg, has at considerable expense, made a road part of the way *on the route* designated in the agreement, intending to complete it as Mr. Hazlet agreed to do which will not exceed from five to six degrees elevation but ever since be commenced, about a year ago, his employers have been persecuted, annoyed and put to extra expense continuously, and he will not now consent to waste more ground on a road so steep, and which no prudent man will use when they get one comparatively level, and Mr. McClurg now intends to confine Mr. Aiken in future to the breadth of road be has confined himself to for so many years past.

Alex. McClurg.

To-morrow afternoon will be commenced the free concerts in the Allegheny Parks.

RELIGIOUS.

Reformed Presbyterian Synod, (O. S.)—Eighth Day's (Thursday) Proceedings.

Synod met at 9 o'clock, and spent a half-hour in devotional exercises, W. W. Bartly, Elder, of New York, presiding and introducing the services.

Subsequently Rev. Jas. Kennedy, of New York, Rev. Jos. McCracken, of St. Louis, and Rev. McMillin, of Kansas, were engaged.

THE WESTERN AND SOUTHERN MISSIONS.

Rev. Dr. Sproull stated that the Central Board of Missions had made nominations or appointments for laborers in the fields of labor under their care, viz:

D. Martin, to explore the field west of the Rocky Mountains; D. G. Thompson, to Toronto, Canada West; Rev. R. Hutchinson, to Eliota, Minnesota; Rev. James Wallace, to Sylvania, Missouri, and Rev. J. McCracken, of St. Louis, to the South.

The Board recommended that Mr. Martin, now a licentiate, be ordained before being sent into his field. On this, discussion arose. Dr. Stevenson objected to the ordination of any one who has not the call of the people to the office. He is unwilling that Mr. Martin, or any man, should be ordained to labor as an explorer, or even as a missionary for a short time, and then in a year or so come back to take his place in the courts as a governor of the congregations of the church.

On motion, this part of the recommendation was stricken out.

Dr. Sloane said he did not object to what has now been done, provided it be not hereafter cited as a precedent to prevent the ordination of missionaries.

The recommendation of the laborers for the west, was now confirmed by Synod.

On the subsequent motion to confirm the nomination of Rev. J. McCracken as missionary to the Freedmen, the question was asked if the appointment is for a year or so, or for life.

A member of the Board replied: "for *life*, if behavior be good."

The appointment was then confirmed.

VARIOUS REPORTS

of committees were now read and disposed of. Most of them were in reference to ordinary routine business.

TOBACCO.

Rev. J. L. McCartney, chairman, reported on the paper of J. Russell in reference to the use of tobacco.

Moderator—"The text of this memorial is, 'Is the common use of tobacco useful?'"

The report is as follows:

The conscientous Christian is earnestly entreated to consider its ruinous effects:

First—*Upon the man himself. Physically, mentally and morally*, it is injurious. It is confessedly one of the most virulent poisons known to the medical profession. Professor Willard Parker, Drs. Griscom, Proutt, Taylow, Dio Lewis and many others, give the most decided testimony as to its deleterious effects upon the body. Dr. Lewis, whose opinion is valuable on this point, is very confident that the physiological effects upon the system are even worse than those of alcohol. Dr. Laycock, an able and eminent medical jurist of the Edinburgh University, testifies that the use of tobacco induces great changes on the system, that it is particularly ruinous upon the stomach, lungs, heart, brain and nervous system; injuring the mucous membrane and impairing the action of the heart, and sometimes producing ulceration of the cartilages of the larnyx.

Constipation, hemorrhoids, chronic diarhœa, dyspepsia, palpitation of the heart, cancer of the tongue, *delirium tremens*, and even impotency or *emasculation*, may be traced to this source.

Dr. Solly, an eminent British physician, gives the most decided testimony as to its ruinous influence upon the mind—weakening the memory, and *stupifying all* the powers of the intellect. The habitual smoker often becomes nervous, timid, anxious, and even delirious.

Dr. Solly, after stating that smoking is the greatest curse of the age, says: "I know of no single vice which does so much harm as smoking. It is a snare and a delusion. It soothes the excited nervous system at the time, to render it more excitable and more feeble ultimately."

There were eight cases of insanity in the Massachusetts hospital in 1843, produced by the use of tobacco, and four from the same cause in the Insane hospital of Pennsylvania in 1849. Any thing that defiles the stomach deranges the secretions, pollutes the breath, fires the nervous system, and saturates the whole man with pollution, must be impervious and contrary to the precept "keep thyself pure."

Second—Its effects upon his offspring. In this especially "the evil that men do live after them." Those who enter the married relation, should earnestly reflect that they may become the means of entailing upon their children a legacy of moral evil, which they shall afterwards have no power to arrest. In the enfeebled, sickly constitution of their children parents may often read the penalty of their vice upon this point. Second to none other in importance, medical testimony is abundant. "On woman" says Dr. McDonald, it takes a sad hold. * * She makes bad recoveries from her confinements. Her children at the breast are liable to erysipelatous and other skin diseases.

Even the appetite for tobacco, as in the case of strong drink, may be inherited. Mr. Binghampton, of the New York Asylum, says that one hundred and one out of three hundred inherited this fearful legacy from their parents. It is a needless expenditure of money. A smoker, at the low rate of three cigars a day, will expend twenty dollars in a year, and one thousand dollars in fifty years, should he use it that long—an amount, perhaps, greater than that which he gives to the support of the gospel. Even those who use the commonest kind of tobacco would be astonished at the amount expended in this way, were they to keep a strict account of this item. Add to this, valuable time, squandered and idleness induced by this social evil, and the good steward will find it difficult to justify his conduct at the bar of conscience.

A few general facts may be stated in this connection. Two years ago the Kansas Legislature appropriated for the use of the prisoners in the Penitentiary, $1400 for tobacco, but $300 for the gospel.

A bishop of the Methodist church stated last year that the Methodist church of the United States spent annually $2,000,000 for tobacco, while its treasury was $1,000,000 in debt.

According to actual estimate, the students in one of the New England colleges expend 6,000 annually for tobacco.

More is expended for this, in some of our large cities, than for bread.

In view of these facts, aside from other considerations, this great national vice can be pronounced a harmless luxury.

Fourth.—Its Ruinous Influence, by Example, upon the Youth. Young men do not *ordinarily* take to smoking or chewing because it is agreeable or pleasant, but chiefly owing to example and the social habits of society. We *are* our brother's keeper. One competent to speak on this point illustrates it thus: "I would not for my life turn out a box of adders in my parlor, and say to my friends, 'If you keep your eyes open and are reasonably careful where you set your feet, you may not be bitten.' But as well might you do this as set an example before your children, day after day, when at last it biteth like a serpent and stingeth like an adder."

The example of a pastor or elder or friend may cause a young man to stumble on to destruction. Fenelon says: "Youth is the flower of a nation; it is in the flower that the fruit should be cultivated." It is on this principle that the council of one of the Cantons of Switzerland prohibits young men from smoking till they are sixteen. On this point we add the testimony of Dr. Higginbottom, of Nottingham: "After fifty years of extensive and varied practice in my profession I have come to the conclusion that smoking is a main cause of ruining our young men, pauperizing the working man and rendering comparatively useless the best efforts of the ministers of religion."

Fifth—Its Tendency to Accelerate the Drinking Habits of This Country—There is meaning in the maxim, "Smoking induces drinking." Smoking induces thirst, and thirst drives young men to the dram-shop. It is the Indian's "dry dram," and very justly they are compared to two gamblers who play into the hands of each other. One who has made careful observation on this subject says that forty-nine out of every fifty drinkers are smokers. Too often, indeed, they are in alliance.

Dr. Higginbottom says: "Perjury and crime are brought on by drinking to supply the moisture that has been drained by spitting away the saliva. Hence drunkenness in the masses."

Therefore resolved, that in view of these undeniable truths in science, and unquestionable facts, Synod condemns the habitual use of tobacco, and advises ministers, elders and people to abstain.

On this paper a brief, spicy, sharp, and somewhat disorderly discussion arose.

Some alleged that many members of Synod are not capable of understanding the physiological argument, or of knowing the truth of the facts stated in the paper.

The chairman of the committee said they had been exceedingly careful in their statements, and have made none that are at all extravagant. They are all reliable and from standard authors.

We (the committee) wish the paper to go before the church to address the consciences. If Synod can do this, it should.

Rev. McCracken wished the paper might not be published in the minutes of Synod, but only in the magazine of the church.

Rev. McAlister said there should be a more thorough examination of the subject—a weight of authority affixed to such a document.

Rev. R. D. Sproule moved to re-commit the paper, that the committee may report at next Synod.

Rev. J. R. Thompson said that the use of tobacco is a sin as well as drunkenness. They are giant evils. Let us not be cowards, nor shrink from duty by refusing to testify against those evils.

Rev. R. Z. Wilson favored the condemnation of the habitual use, but not the adoption of the argument prefaced to the resolutions.

Rev. A. M. Milligan would have an act pass so as to discourage the licensure of any student of Theology who uses tobacco.

Some member here moved that the *argumentative* part of the paper be recommitted and published.

Rev. W. P. Johnston, arguing the main question of Baltimore, said: That this Synod has nothing to do with the use of tobacco, as a vice of immorality. Synod can deal with sin only when it is a scandal. Better men than we—men, the dust of whose feet was better than the crown of our head—use tobacco.

[A Voice—"So did they use *whisky* in former times.]

This is not a College of Medicine, nor a barber shop. You have no right to ask a man whether he has cleaned his teeth, or whether he has made his meal on buttermilk or not.

I wish I could cease from the use of tobacco. My friends have urged me to; but I expect to use it as a medicine as long as I live.

Rev. A. M. Milligan asked—Have we no power to stop this fearful contagion, ruining morality as well as physically? If not, we had better disband.

David Wallace said: The argument in favor of the use of tobacco and against its condemnation reminds me of the old argument in favor of the use of whisky and the disciplining of drunkards or drinkers. They defied us to interfere or to touch the subject.

The argument as to scandal is only this, that we may not arrest immorality so long as it is unpopular. This evil is growing and has a connection with almost all others.

John Gray, of Kentucky, quoted the statements of the late Dr. Mussey, who said that the excessive use of tobacco produces a disease similar to delirium tremens.

Dr. Sloane moved that the report be recommitted and published over the signature of the committee.

Rev. Armour thought we might as well propose legislation against the use of pork, whose use is known to be unhealthy.

Rev. McCracken asked if this business will not keep until next year? and moved that the paper be laid on the table.

This motion prevailed.

Rev. J. S. T. Milligan said that he wished to acquit his own conscience, and moved that no student shall be licensed to preach who uses tobacco.

This motion the Moderator decided to be out of order.

DISPOSITION OF LABORERS.

Rev. M'Alister, chairman, read the report of the committee on the reports of Presbyteries. The committee reports the distribution of licentiates and unsettled Ministers, among the various Presbyteries. Before the paper was adopted, it was recommitted for completion.

LOCALITY OF NEXT SYNOD.

Rev. A. Bowden, moved that the next Synod shall be held at York, York Co., N. Y., and made statements showing why it will be the proper place.

The motion was passed almost unanimously.

Dinner hour having arrived, Synod took a

RECESS

until 1½ P. M., the members repairing, probably for the last time, to the Robinson House, to partake of a good dinner.

After recess, Rev. Mr. Sharp, of Philadelphia, was appointed the moderator's alternate to preach the opening sermon.

DISCIPLINE AGAIN.

The report of the Committee on Discipline came up again for further disposition.

The next item was the case of Rev. James Stott, of Princetown, India.

The Committee, after reviewing the history of the case briefly, recommended *no action* on the case.

Rev. R. Z. Willson offered a substitute bearing a different aspect, which was not entertained, when Rev. S. O. Wylie moved to lay the whole subject until the next meeting of Synod.

After discussion, the motion passed.

IN MEMORIAM.

Rev. M. Sharpe read the paper on decease of Rev. James Buck, late missionary in Minnesota, which was adopted.

Rev. S. Bowden moved that the interest of the fund for superannuated ministers be appropriated for the benefit of the family of the deceased. Passed.

A committee was raised to report whether Rev. McCracken accepts the appointment to the mission to the freedmen. Before a vote, Rev. S. O. Wylie said that he learns from Mr. McCracken that his health will not allow him to go South—that he wishes to go to the Rocky Mountains. Why cannot he be sent to California, and Mr. Martin to the South? He move that Synod so order.

Objection being made, the motion was withdrawn.

The committee on

NATIONAL REFORM

reported. The following are extracts:

"We observe that the receipts of the National Reform Association in this cause, during the year 1870, have been nearly twice as large as were contributed during any previous year, though many congregations failed to make contributions."

"The past year has been marked by steady and gratifying progress in the formation of public sentiment in support of national reformation; and we urge the claims of the cause as heretofore, on the labors and liberality of all the members of the church."

"We recommend the appointment of —— —— to give his whole time to public labors in behalf of this cause, and to report annually to this Synod, and to the National Association."

The report was recommitted for change.

COMPLAINT FROM SOUTHFIELD CONGREGATION.

This is a petition and complaint of Mr. McCurdy and others, against the action of the Presbytery of the Lakes, because it had refused to grant a new organization to some disaffected members of Southfield, Mich., congregation.

Mr. McCurdy was permitted to advocate his complaint.

Rev. S. Sterrett replied on behalf and in defense of the action of Presbytery.

After responses, the parties were removed, and Rev. S. O. Wylie moved that the Complaint of Mr. McCurdy be dismissed. Passed.

The other paper is the petition for a separate organization in Southfield congregation, which Presbytery had refused.

Rev. S. Sterrett moved that the paper be returned to the petitioners.

Here rose a warm discussion as to the law and order of the church in reference to the transference of complaints containing libelious matter. Passed.

A DELEGATE.

Rev. J. H. Boggs was appointed delegate to attend the meeting of the General Synod of Reformed Presbyterian Church, (N. S.) to meet in Brooklyn, N. Y., 1872.

NATIONAL REFORM.

The report of the Committee on National Reform was again taken up for adoption by item.

On the first, it was said by Rev. Dr. Stevenson that it would be difficult for ministers to go into the pulpits of the hymn-singing churches without giving sanction to the use of uninspired praise and organs.

Rev. James Wallace said there is no practical difficulty whatever. The Scripture Psalms can be introduced anywhere. He had tried it many a time, and it gives a good opportunity to introduce them. He narrated an incident of an old lady who was present at one of his lectures, when he had asked the congregation to sing an inspired Psalm, who, after the services closed, came forward to the pulpit, took him by the hand, saying that it gave her indescribable pleasure to be permitted to sing one of the good old Bible Psalms, which she had not sung or heard sung for long years.

Rev. A. M. Milligan. We can print psalms, selections from them that are appropriate, on slips of paper, and scatter them through the audience.

On the third item of the report, which provides for the appointment of a lecturer to travel in behalf of the cause, Prof. Sloane said this should be made a prominent matter. But it is now too late—near the time of our final adjournment—to discuss it. Gov. Andrew of Massachusetts, once said;—"*one* man will shovel his way through a snow bank alone, quicker than half-a-dozen to help him." We want one man to give his brain and heart to this work, and in one year great progress will be made. Let us do the Lord's work—try it, at least one year, and leave the rest to God.

Wm. Neely said that in New York City the most popular churches were frequently and gladly offered for our meetings. We had the psalms printed and scattered among the people. We consented to not use the organs, and we had grand meetings.

D. S. Faris said: Assign one laborer to this work, and the money will be promptly raised.

T. P. Stevenson—The adoption of the method is essential to the success of the cause throughout the country.

The paper was then adopted, and the blank was filled by the name of Rev. D. McAlister, of Walton, N. Y.

The vote appointing him was taken by rising, and it was about unanimous.

The Committee on National Reform was then directed to have appropriate selections from the Psalms printed and to be used at meeting when needed.

DAYS OF THANKSGIVING, &C.

Rev. William Galbreath read the report of the Committee on the Signs of the Times. About the usual days of fasting, &c., were appointed.

THE MISSIONARIES.

The Committee appointed to confer with the foreign missionaries elects, reported that Rev. Galbreath has accepted the appointment, and that Rev. George asks time to consider. He is recommended to give his reply to the Board.

APPROPRIATIONS.

The subject of Home Missions being again resumed, liberal sums were appropriated to the Western Freedmen's Missions, which it is the intention to carry on vigorously.

THANKS.

Votes of thanks were returned to Railroad Companies that had furnished excursion tickets to the members—to friends in the congregations of Pittsburgh and Allegheny for their magnificent hospitality to the members of Synod—and to the Reporter of these proceedings.

NEXT MEETING.

The time of the next meeting of Synod was fixed on the Wednesday after the fourth Tuesday of May, 1872, at 11 o'clock A. M.

After the vote to adjourn had been stated, Rev. A. M. Milligan, pastor of the congregation in whose house Synod held the meeting, expressed, on behalf of his people, special gratitude that they had been honored by such a meeting. Some of the people had said they would like to have Synod meet here again next year.

THE CLOSE.

The adjourning prayer was offered by Rev. Jas. Kennedy, after which the Synod, standing, united in singing the 133d psalm, and the Moderator pronounced the benediction.

NOTE BY THE REPORTER.

To the *special* Subscribers of the Gazette:

It is due to the Reporter to say for himself that he has used every precaution and made every effort to have the papers containing the reports of Synod's proceedings mailed carefully every day. If any subscribers do not receive all the papers, the fault cannot be here, but must be in the Postoffice Department elsewhere.

Some subscribers did not forward their names until the second, third, or fourth day of the Synod's meetings. If they did not receive the back numbers, the cause is their tardiness in forwarding their orders. We have, however, in every possible case, forwarded the back numbers. The papers, containing the first, second and third day's proceedings, were soon exhausted, and could not be had after Saturday, 27th of May.

If any apology for defective reports is due, we may remind our readers that the reporter himself was a member of the Synod, having to share the burden of responsibility. He has, however, had his share of the enjoyment common to those who regard this meeting of Synod one never to be forgotten by those who love Him who left us not without the evidence of his favor.

Nor can the reporter close this note without expressing his indebtedness to the gentlemanly editors of the Gazette, who have done so much to favor, as well as to lighten the burden of, the Reporter.

ATTEMPTED SUICIDE.

A Woman in Allegheny Attempts Suicide by Taking Poison—She is Prevented by a Neighbor who Dashes the Vial out of her Hand.

The people of the Sixth ward, Allegheny, have been considerably excited by an attempt at self-murder in that ward. Mrs. Rinn is the person who has caused the excitement and startled her neighbors by an attempt to send herself out of the world by her own hand.

Mrs. Rinn is the wife of Peter Rinn, a butcher, who resides at the corner of Juniata and Chartiers streets. It appears that there has been some difficulty in the family of Mr. Rinn and that Mrs. Rinn was dissatisfied with her married life. She, therefore, not thinking it "better to bear the ills we have than fly to others we know not of" took this method of ending her troubles. Mrs. Glitch, a neighbor, heard the children of Mrs. Rinn crying, and immediately ran in to see what was the cause of the disturbance. It seemed from the noise and confusion that something of a dreadful nature was taking place. Mrs. Glitch was much startled at the scene before her. One of the children ran up to her, and in screams of terror besought her to prevent her mother from taking the fatal draught. The other children were clinging to the mother while she had the vial uplifted and was in the act of commiting the crime. Mrs. Glitch rushed forward, caught the vessel and dashed it on the floor, but not in time to prevent part of its contents being swallowed. Dr. Riggs was immediately sent for, and arriving in a short time, succeeded in rescuing the unfortunate woman from the grave. She is still very weak from the effects of the poison, but there appears to be no doubt of her recovery.

St. Clair Borough Council.

The Council of St. Clair Borough held a regular meeting Wednesday evening.

Members present—Messrs. Spinneweber, Baldauf, Galvin and Hartman, Burgess Newmyer in the chair.

Under authority of the State Legislature, approved May 10th, 1871, a resolution was passed assessing a tax of fifteen mills on the dollar, to meet the expenses of the current year.

The Solicitor was instructed to prepare an ordinance giving the Mt. Oliver Incline Plane Railway Company permission to construct their railway over certain portions of their borough.

On motion of Mr. Galvin, a resolution of thanks was voted Honorables W. H. Anderson, of the State Senate, and John H. Kerr and Jas. Taylor, of the House of Representatives, for services rendered, and for their diligence and attention in procuring important legislation for the borough during the last session of the State Legislature.

On motion, resolved, that the attention of the magistrates of the borough be called to the provisions of the recent act of the Legislature, to prevent disorderly conduct, etc., within the borough limits.

On motion, adjourned to meet Tuesday evening, June 6, at 8 o'clock.

The friends of the North Avenue (Allegheny) M. E. Church Sabbath School should bear in mind that to-night will close the strawberry festival which has been progressing for some time for the benefit of the school. Aside from the pleasure derived from a visit is the pleasure of aiding in a pecuniary way a most deserving object.

John Flinn perpetrated a dry joke last evening. He was calling the attention of the Street Committee to a little matter of work and labor done for which he had not received remuneration. A member reminded John of the scriptural promise, "cast thy bread upon the waters," &c., when the veteran contractor responded "that bread cast upon *dry* water *never* returned."

Alderman Koenig yesterday joined a couple in the bonds of wedlock. It appears that the woman without being a wife had become a mother, and she made information before the Alderman against the father of her child. He was arrested and it seems that after thinking the matter over awhile he concluded to pursue an honorable course and marry the woman he had deceived. The Alderman tied the knot in good style, and the parties retired, seemingly well pleased with the arrangement.

Edward Joyce and Sarah Joyce were yesterday before Alderman Taylor on a charge of surety of the peace, preferred by Patrick Boyle. It is alleged that Joyce came to deponent's house, challenged him to come out and fight, and threatened to send another party to whip him. It appears also that Mrs. Joyce urged her husband to smash deponent's pug nose. Patrick was afraid his nose might at some time receive a smash, and that this belligerent couple would do him bodily injury, and he accordingly made information against them. The parties were arrested and will have a hearing on Saturday evening.

The wedding of Mr. Thomas Park and Miss Letitia, third daughter of the Rev. Dr. W. D. Howard, took place last evening at the Second Presbyterian Church in this city, the father of the bride officiating. The interior of the church was neatly and beautifully festooned with flowers and wreaths. The ceremony was witnessed by the congregation, and the friends of the happy couple. We heartily approve of this manner of conducting these interesting events, and think that the temples of God are the proper places in which to conduct the ordinances, which have been established through Divine authority. In addition to this it enables all of the friends of the bride and groom to be present and witness the impressive and beautiful ceremony.

FIRE MARSHAL'S REPORT.

Fires, Losses, &c., During May.

Fire Marshal Butler's Report for the month of May has been received, from which it appears that there were during the month nineteen fires, three of which were chimneys. The total value of property destroyed amounted to $32,321 75; total value of property on which insurance was effected, $108,989 75; insurance effected on this to the amount of $27,900; insurance paid, $5,240; number of fires on which insurance not adjusted, 9.

The most destructive was a two-story brick and frame tannery, situate corner of Ackley street and Irwin avenue, Allegheny city, at which property was destroyed to the amount of $8,000; insurance effected $3,600. Of the nineteen fires, one was an incendiary, on Mt. Washington; four were defective flues; two spontaneous combustion; three from lamp explosions; three from sparks from furnaces; one from soot; two from stoves; one from hot glass; one from boy lighting a pipe; one from sparks from locomotive; one from caldron boiling over; one from girl lighting paper and putting it in stove. Eight persons were notified to remove nuisances that endangered property by fire.

Jos. A. Butler, Fire Marshal.

A Sound Institution.

It is an important requisite in the saving of money to know where to deposit it with the certainty that it will be safe and always return a good per centage. Those who have accumulated any little store "for a rainy day," always look to this, and hence are cautious in the disposition of their funds. To such, an institution like the Franklin Savings Bank of Allegheny, offers all the inducements which can be required by the most careful depositor. The "Fraklin" does a general Banking Business and has within little over half a decade of years, been so managed as to win the confidence of many of the shrewdest capitalists who appreciate its advantages. By a strict avoidance of the speculation high pressure system, and rigid adherance to straightforward, steady principles of business, the "Franklin has gained a reputation for solidity, which is not excelled by any banking institution, of the same capital stock in the State. Its success has been remarkable and attests the prudence and business tact with which its affairs have been conducted.

By reference to a card elsewhere, it will be seen that at the last election changes were made in the Board of Directors—the Board now consisting of Messrs. Geo. R. Riddle, J. W. Hall, Wm. Burgoyne, D. MacFerron, Simon Drum, John M. Tate, F. D. Eshelman. The fact that the Franklin has identified with its management gentlemen of business tact and personal worth, such as these, is a guarantee of its character, which ought to be sufficiently satisfactory to the most cautious. The banking firm is at No. 43 Ohio street, Allegheny, where all who have banking business will find the efficient and courteous cashier, Mr. James H. Riddle, ready to respond to their wishes.

PHILIP HOERR, P. M.

Family Insanity.

A sad case of insanity was developed at the lock-up yesterday morning. The victim was a young woman named Bridget Sherman, who resided on Tannehill street, Eighth ward. Upon several occasions she exhibited signs of insanity, but these passed away and she was apparently free from all derangement until within a few days ago, when she suddenly became violent. Wednesday evening she was observed running along Bluff street, shrieking and several times had almost gone over the precipice. She was finally secured and taken home, and her case brought to the attention of the authorities yesterday morning. She was taken to the lock-up and in the afternoon sent to the Poor Farm.

What renders the case still more distressing is the fact that her mother has been insane for three years and now occupies the same home as her daughter.

The Court Martial.

The court-martial of Brig. Gen. McLanahan still hangs fire, or rather has never come to a trial at all. The Court met, and last Friday evening came to a decision on the point raised as to their jurisdiction in the case, but further than that nothing has been done, and what the decision is none but the members of the Court know. It seems they are sworn to secrecy. Their decision must be made known to headquarters here, and through that forwarded to Harrisburg, to the State headquarters, and from there made public. This red tape may occupy a week, and it may require several months—just as outside circumstances direct. The case is thus in that condition—although it has been intimated that the decision of the Court is in favor of the plea of the accused—that it has no jurisdiction.

ONE OF THE CHIEFS.

Another Dealer Captured—The Chase After Him and How He was at Last Caught—Committed to Jail.

The dealers in counterfeit money who annoyed our people last winter with their operations are gradually falling into line—which is to say that the jail is now, and the Penitentiary in all probability will be, in future, their home. Yesterday another of the gang was brought to the city, one Aaron Koons, who is said to be one of the principal operators.

He with others was here last fall and flooded the country with spurious notes on the Farmers and Mechanics' National Bank of Pittsburgh. District Attorney Swoope took the matter in hands, and by dint of untiring exertions, succeeded in capturing the majority of the ringleaders, who are now in our county jail.

Koons however eluded the officers and got away to Illinois. Detective Dowes chief of the Ohio Detective Department, was then entrusted with the work and after two months of watching finally secured the man. He had followed Koons for some time from place to place and one day caught up with him on the road. Koons was easily decoyed into the buggy and a few minutes afterwards was in irons. He was taken to Cincinnati, and from thence to this city, arriving here yesterday morning.

He was at once taken before Commissioner Gamble but waived a hearing and was committed for trial.

The accused is a son-in-law of the notorious Mingis, and is considered only next to Mingis and "Bob" in the boldness of his operations. His capture is looked upon with great pleasure by the U. S. authorities.

THE COURTS.

Yesterday's Proceedings.

DISTRICT COURT—JUDGE HAMPTON.

The case of J. K. Baum vs. the Lorillard Insurance Company, reported yesterday, still occupies the attention of the court.

No change in the trial list—the list of yesterday will remain for to-day.

COURT OF COMMON PLEAS—FULL BENCH.

Argument list was resumed and occupied the attention of the court all of yesterday.

Upper Fifth Avenue, and Increasing Value of Property.

A new and active spirit has taken hold of the Pennsylvania or Fifth avenue side of our city. Its Oakland district was an early and favorite suburb, and to-day thickly studded with the richest and most beatiful mansions and ornamental grounds. Indeed, the Oakland valley cannot be surpassed in natural beauties; and cultivated adornments. Now that our city Fathers, the other day, removed from Fifth avenue the incubus of the old Turnpike Gate, this eastern outlet from the city will again become the favorite route of travel. The opening and extension of Forbes street, between Fifth avenue and the Monongahela, with its "broad gage" of sixty feet, will be another great attraction for this side of Pittsburgh. We understand that the money received by the Turnpike stockholders, from the city for their privileges, will be entirely expended upon improvements of the avenue. Thus the Fifth avenue side of our city is to become again the most attractive, as heretofore it had been; and maintain, upon its upper end the character indicated by its throngs between Grant and Liberty streets. The elegant and commodious structure of the new Fifth Avenue Market, at corner of Miltenberger street, is an evidence of the intent for, and result of, the future, and now the energetic steps taken for constructing the Fifth Avenue Bridge between Pittsburgh and Birmingham, at a point somewhere near to the new Market, is assurance of what must be the rapid advance in property, as in business, around this enterprising locality.

See McIlwaine's auction advertisement for particulars of the great auction sale of 64 lots Van Braam, Miltenberger, Forbes and Locust streets, to-morrow afternoon, at 2 o'clock, on the premises. These are beautifully lying lots, and adjoining the new Market House. The man who does not require spectacles for his brains, will perceive that this is the chance to buy.

Cutting Affray.

About eight o'clock Wednesday evening a fight occurred between a party of men at the corner of Federal and Robinson street, Allegheny, in which one of the combatants named Adam Kresaler was severely cut on the right arm. The young man who committed the deed ran away and has not been arrested. The wounded man was taken to the office of a physician near at hand, where the wound was dressed. The examination by the doctor disclosed a frightful gash on the arm, near the shoulder, some five inches in length. We learn that Mr. Kresaler declines to prosecute.

I Have been using Sawyer's Barber Soap for about nine years, and I have no hesitation in saying that it is the best shaving soap I have ever used. THE STREET COMMITTEE.

Meeting Last Evening—The Bluff Street Fence &c.

The Street Committee of Pittsburgh Councils held a meeting last evening, in the City Engineer's office. Among the business transacted was the following:

The contract for constructing a fence along Bluff street, authorized by Councils, was let at the rate of thirty-two cents per foot, the work to be done in accordance with the specifications at the engineer's office.

The pay rolls for the month, amounting to $3,293 67 were signed. This amount comes from appropriation No. 30, the money appropriated for the payment of contractors.

The Committee had under consideration other matters relating to the grading and paving of streets, but adjourned without any definite action.

ORDINANCES.

AN ORDINANCE—Defining the location of Water and Gas Pipes and Sewers.

SEC. 1. Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby enacted by the authority of the same, That for the purpose of securing a more uniform plan than that already existing, relative to locating water and gas pipes and sewers, and preventing as far as possible accidents likely to occur from a want of uniformity, it is hereby ordered that the central portion of all streets, alleys, &c., shall be specially reserved for water pipes.

SEC. 2. The Gas Company are hereby required, prior to locating any main or extension of their pipes, to consult the City Engineer, who is hereby empowered to designate which side of the street, alley, &c., the gas main or mains shall occupy.

SEC. 3. All sewers shall be located on the opposite side of the street, alley, &c., to that set apart for gas pipes, and in all cases the water pipes, or space therefor shall intervene between sewers and gas pipes.

SEC. 4. That when any pipe or sewer has been already laid in any street or thoroughfare whatsoever, any sewer or pipe subsequently laid shall be placed on the opposite side of such thoroughfare.

SEC. 3. That all ordinances and parts of ordinances inconsistent herewith, be and the same are hereby repealed.

SEC. 5. It shall be the duty of the City Engineer to require an observance of this ordinance.

Ordained and enacted into a law, this the 25th day of May, Anno Domini, one thousand eight hundred and seventy-one.

PROPOSALS.

To Iron Manufacturers.

Proposals for the Metal Work of a First-Order Light-House, to be Erected at Body's Island, North Carolina.

OFFICE OF LIGHT-HOUSE ENGINEER, FIFTH DISTRICT,
BALTIMORE, MARYLAND, May 25, 1871.

Sealed proposals will be received at this office until 12 o'clock of SATURDAY, the 17th day of June, 1871, from iron manufacturers only, for furnishing the materials and labor of all kinds necessary for the completion of the metal work of a first-order light-house for Body's Island, North Carolina, in accordance with the specifications and drawings.

The same to be delivered, at the expense of the contractor, on board a sea-going vessel or vessels, at any sea-port nearest to the manufacturer's workshops, and accessible to such vessels.

The bid should state the sum for which the ENTIRE METAL WORK, as shown on the drawings, will be completely, fully erected at the workshops, and then taken down after acceptance, and delivered as aforesaid, and should also state the day and date on which it shall be so completed and delivered, under forfeit as specified in the "Form of Bid."

The right is reserved to reject any proposal for any reason deemed sufficient.

Each bid must be accompanied with a bond signed by the bidder and two competent sureties, (certified to be such by some officer known to the Treasury Department,) in the sum of ten thousand dollars, ($10,000,) that in the event of the acceptance of such bid, the necessary contract will be entered into within five (5) days after notice is given by the agent of the Light-House Establishment that the bid has been accepted.

Bond and security, in the sum of ten thousand dollars, ($10,000,) signed by two competent bondsmen, for the faithful performance of the contract, will be required.

A copy of the plans and specifications must be inclosed with the bid, as evidence as to the object of the proposal.

All proposals must be signed, sealed and indorsed "Proposals for the metal work of a light-house for Body's Island, North Carolina," and then inclosed in another envelope and directed, pre-paid to the undersigned.

Any bidder may be present and witness the opening of the bids at the time and place herein-before specified.

Plans, specifications, and forms of proposals may be obtained from the undersigned, on application, by mail or in person, at his office in the Union Bank Building, Baltimore, Maryland.

DISTRICT OF NEW ORLEANS,
PORT OF PITTSBURGH, May 1st, 1871.

NOTICE IS HEREBY GIVEN THAT sealed proposals, accompanied by proper guarantees, according to forms to be furnished on application to this office, will be received there, until 12 o'clock meridian, on the FIRST TUESDAY IN JUNE NEXT, for the supply of the marine hospital near this city, with the articles of subsistence, &c., enumerated in said forms. The quantities stated are estimated with reference to the usual number of patients in the hospital, but the United States reserve the right to take more or less of said articles, and to substitute one article for another, as the exigencies of the service may require. If the articles delivered at the hospital are not, in the judgment of the surgeon in charge of the best quality, and adapted to the hospital, he will be at liberty to reject the same, to purchase other articles instead, and to charge the contractor with any excess in the cost over the contract prices. The United States reserve the right to accept the proposals for the whole or any portion of the articles specified.
